WHAT DOES THE LIMITED PARTNERSHIP INVEST IN?

RESCO First Mortgage Fund LP is an alternative lender that caters to a key market segment, such as entrepreneurs with irregular income, recent immigrants with little or no credit history, divorced couples with bruised credit and borrowers unable to obtain mortgage lending from traditional lenders.

The Limited Partnership invests only in first mortgages secured by marketable residential properties located in major CMA (Census Metropolitan Areas), primarily in Ontario. Mortgage terms are typically 6 to 24 months which minimizes real estate price fluctuation risk, interest rate risk and duration risk.

MARKET OVERVIEW

Bank of Canada Rate Cuts Fail to Revitalize Housing Market

In June, the Canadian real estate market continued to show signs of sluggishness. Home sales declined by 16.4% compared to the previous year, with many potential buyers remaining hesitant. The average selling price in the GTA dropped by 1.6% year-over-year, despite a 12.3% increase in new listings over the same period.

Even after the Bank of Canada cut interest rates in April, the housing market has seen an increase in listings rather than sales. June's sales data indicates that multiple rate cuts might be necessary to encourage homebuyers to re-enter the market.

At RESCO, we maintain a conservative underwriting approach to minimize risk and prioritize protecting our investors' capital.
