## WHAT DOES THE LIMITED PARTNERSHIP INVEST IN?

RESCO First Mortgage Fund LP is an alternative lender that caters to a key market segment, such as entrepreneurs with irregular income, recent immigrants with little or no credit history, divorced couples with bruised credit and borrowers unable to obtain mortgage lending from traditional lenders.

The Limited Partnership invests only in first mortgages secured by marketable residential properties located in major CMA (Census Metropolitan Areas), primarily in Ontario. Mortgage terms are typically 6 to 24 months which minimizes real estate price fluctuation risk, interest rate risk and duration risk.

## MARKET OVERVIEW

### Another Bank of Canada Rate Cut – But Hold Your Breath for Market Rebound

The Bank of Canada announced another cut to its key interest rate in July, as widely expected by the markets. The overnight rate was reduced by 25 basis points to 4.5%, returning to the levels seen in January 2023. While the cut will impact borrowing costs, it is not expected to spur an immediate rebound in Canada's economy. It will likely take 12 to 18 months for the full effects to be reflected in the residential real estate market.

Meanwhile, the U.S. Federal Reserve recently hinted at a possible rate cut in September. Canada's fixed-mortgage leading five-year bond yield is on track for eight straight closing lows. These developments suggest that we may be entering an interest rate easing cycle, which is welcoming news for borrowers and the mortgage industry.
