Any subscription for the Units made by any person on the basis of statements or representations not contained in this Offering Memorandum or so provided, or inconsistent with the information contained herein or therein, shall be solely at the risk of such person. Neither the delivery of this Offering Memorandum at any time nor any sale of any of the Units made hereunder shall, under any circumstances, constitute a representation or create any implication that there has been no change in the business and affairs of the Partnership since the date hereof or that the information contained herein is correct as of any time subsequent to the date hereof.

Subscription Matters:

Persons interested in investing in the Partnership will be required to complete and return to the Partnership the subscription documents, a copy of which is available to prospective investors upon request. Subscriptions may be rejected in whole or in part in the Asset Manager's sole discretion.

Closings:

Closings will take place monthly on the last business day of each month, or at such other times as may be determined by the Asset Manager, in its sole discretion.

Redemption Rights:

Unitholders may not redeem Units during the first twelve months following the issue date of the subject Units. The General Partner may, in its sole discretion, waive such lock up period.

Thereafter, Unitholders may request redemption of all or part of their Units monthly, as at the last business day of each month (each, a **"Redemption Date"**), in accordance with the below provisions and provided that such Redemption Date occurs following the first anniversary of the initial purchase of the Units being redeemed.

In order to exercise this redemption privilege, redemption requests must be received by the Asset Manager at least 90 days prior to the applicable Redemption Date, in such form and with such supporting documents as the Partnership may prescribe, although the Asset Manager in its sole discretion may waive or reduce the notice period. If 90 days' notice is not given, the Asset Manager is not required to consider redeeming the Units until the following Redemption Date after such 90 day notice period.

The amount payable in respect of each Unit redeemed (the **"Redemption Amount"**) is equal to the Fair Market Value of the Unit on the Redemption Date, together with all distributions declared and unpaid as at the Redemption Date. There are no redemption fees, and the Partnership bears its own handling and processing costs, including bank charges. Only whole Units may be redeemed unless the investor's entire investment is being redeemed. Fair Market Value is determined by Asset Manager in accordance with the LPA.

The Redemption Amount payable for redemptions of Class "B" Units more than 12 months but less than 36 months following the issue date of the subject Units are subject to such discounts as set out herein. The General Partner may, in its sole discretion, waive such discounts.

Payment of Redemption Amounts for any Redemption Date is subject to the availability of funds.

There is no obligation to redeem Units on any Redemption Date if the total amounts to be redeemed on such Redemption Date, together with any amounts requested for redemption on a prior Redemption Date and unpaid as of such Redemption Date, exceeds 5% of the aggregate Fair

Market Value of Units outstanding on the Redemption Date (the **“Monthly Redemption Limit”**).

There is also no obligation to redeem Units on any Redemption Date if the total amounts to be redeemed on such Redemption Date, together with any Redemption Amounts paid in the subject fiscal year, plus the total amount to be redeemed or requested for redemption on a prior Redemption Date and unpaid as of such Redemption Date, exceeds 20% of the aggregate Fair Market Value of Units outstanding as at the beginning of the subject fiscal year (the **“Annual Redemption Limit”**).

The date on which any redemption payment is made, generally the 15th of any month, is called a **“Redemption Payment Date”**. There may be multiple Redemption Payment Dates in respect of any given Redemption Date, depending on the Redemption Requests received. Unless a suspension of redemptions or other similar event is in effect, redemption requests are processed and paid in the order in which they are received.

In addition to the Monthly Redemption Limit and Annual Redemption Limit, there are other restrictions on redemption as described below. All redemptions are made subject to and in accordance with the terms of the LPA.

Once the Redemption Amount is fully paid to a Unitholder, such person will cease to be a Unitholder and have no further claims against the Partnership and no further rights to any distributions.

Redemption by the Partnership:

The Asset Manager has the right to require a Unitholder to redeem some or all of the Units owned by such Unitholder on a Redemption Date at the Fair Market Value of such Unit as of the designated Redemption Date, by notice in writing to the Unitholder given at least 30 days before the designated Redemption Date, which right may be exercised by the General Partner in its sole and absolute discretion.

Transfer or Resale:

Units may only be transferred with the consent of the General Partner and transfers will generally not be permitted. The transfer or resale of Units (which does not include a redemption of Units) is also subject to restrictions under applicable securities legislation. See Item 11 – *“Resale Restrictions”*.

Suspension, Rejection or Deferral of Redemptions:

The redemption right is subject to the Partnership’s ability to liquidate its investments in order to meet the Partnership’s redemption requests. The Partnership is obliged to make all reasonable efforts to meet requests for redemption; however, the Partnership may in certain circumstances defer or delay redemption payments where it determines in good faith that the delay is required to protect the interests of the other investors in the Partnership.

The General Partner has the discretion to suspend, reject or defer redemptions of Units where:

- the Partnership has a working capital deficiency or such redemptions would cause the Partnership to have a working capital deficiency;
- such redemptions would cause the Partnership to be in default of its financial obligations under bona fide arm's length loan or credit arrangements; or
- such redemptions are otherwise prohibited under applicable laws.

See Item 5.1.3 – “*Redemption of Units*”.

Distributions:

The Partnership does not have a fixed distribution. The Partnership may make quarterly distributions as provided in the LPA in such amounts as the General Partner may in its sole discretion determine, in compliance with the following order of priority:

- first, 100% of Distributable Cash to Unitholders until Unitholders have received a return on their Units for such year (in an amount equal to 6.0% *per annum* for Class “A” Units and 6.5% for Class “B” Units) of their applicable subscription amount; and
- thereafter, the remaining Distributable Cash to the General Partner (the “**General Partner Distribution**”).

For greater certainty, if there is insufficient Distributable Cash to distribute following the priority distribution to Unitholders, the General Partner Distribution will be nil. For any Unitholder who has been a Unitholder for less than the full year, the distribution amount will be calculated on a pro rated basis.

The amount of any distributions is entirely at the discretion of the General Partner and there can be no assurance that the General Partner will make any distributions or distributions at a rate of 6.0% *per annum* for Class “A” Units or 6.5% *per annum* for Class “B” Units in any particular year.

Distributions, if any, will be paid in cash by direct deposit, certified cheque, money order or bank draft.

Fees and Expenses:

Subject to the expense cap below, the Partnership will pay for the following of its operating costs and expenses, including interest and other costs of borrowed money; bank charges; fees and expenses connected with the acquisition, valuation, holding, disposition, and ownership of real property interests or other property, including any legal fees or expenses incurred; taxes such as GST or HST; management fees and administration fees; and commissions in connection with the distribution of securities of the Partnership; general errors and omissions and directors insurance specifically relating to the Partnership’s activities; securityholder recordkeeping and communications; filing and any regulatory fees; audit, accounting and legal fees.

The Partnership's operating expenses, excluding interest and other costs of borrowed money, bank charges, fees and expenses connected with the acquisition, valuation, holding, disposition, and ownership of real property interests or other property, and taxes, will be subject to a cap of 0.50% of the book value of the Units on December 31 of such year, where any operating expenses in excess of such cap will be borne by the General Partner. All other operating expenses of the Partnership not listed above shall be borne by the General Partner. The Mortgage Administrator will be responsible for all expenses relating to enforcement proceedings relating to the Partnership's investments, provided that such expenses may be reimbursed from the fees payable by borrowers who are parties to such enforcement proceedings, to the extent that such fees are paid.

Each of the General Partner, the Asset Manager, and the Mortgage Administrator is responsible for its own operations, including rent, salaries, furniture and fixtures, and all other office equipment and will pay all of its overhead costs and expenses relating to the provision of its services to the Partnership.

For expenses incurred by the Asset Manager in connection with the investment activities of the Partnership and in connection with services provided to other clients of the Asset Manager, the Asset Manager shall only be reimbursed for such portion of such expenses as is determined fair and reasonable to allocate to the Partnership as between the Partnership and such other clients.

Sales Commission:

No sales commissions are payable directly by an investor to the Asset Manager or to the General Partner in connection with the purchase of Units. Subject to applicable law, the Partnership may pay a negotiated upfront and trailing commission to Registered Dealers in connection with the sale of Units.

On Class "A" Units, Registered Dealers will be paid an upfront commission of up to 1.00% of the total gross subscription proceeds for Units placed by such Registered Dealer; plus a semi-annual trailing commission of up to 0.50% of the book value of Units held by investors who purchased their Units from the Registered Dealer. Such trailing commission is payable at the end of each six-month period that the applicable Units have been held by the investor after the initial twelve months. No trailing commission will be payable on Units which have been redeemed or otherwise transferred, withdrawn or returned.

On Class "B" Units, Registered Dealers will be paid an upfront commission of up to 4.00% of the total gross subscription proceeds for Units placed by such Registered Dealer.

**Asset Manager
Compensation:**

Under the Asset Management Agreement, the Partnership shall pay to the Asset Manager, as compensation for its services, a management fee up to 0.25% per annum of the Total Mortgages of the Partnership, calculated, aggregated, and paid monthly in arrears, in each case plus applicable taxes.

Mortgage Administrator Compensation:

As additional compensation for its services, the Asset Manager shall be entitled to retain 10% of any and all lender fees generated from mortgage investments made by the Partnership; the remaining 90% shall belong to the Partnership. Any other charges or fees generated from mortgage investments made by the Partnership shall belong to the Partnership, subject to any charges or fees retained by the Mortgage Administrator.

Under the Mortgage Administration Agreement, the Partnership shall pay to the Mortgage Administrator, as compensation for its services, an administration fee up to 0.25% *per annum* of the Total Mortgages the Partnership, calculated, aggregated, and paid monthly in arrears, in each case plus applicable taxes.

As additional compensation for its services, the Mortgage Administrator shall be entitled to retain all discharge administration fees, NSF fees, late payment fees, demand letter fees, insurance cancellation fees, default proceedings fees, and statement fees generated from mortgage investments made by the Partnership. Any other charges or fees generated from mortgage investments made by the Partnership shall be retained by the Partnership, subject to any charges or fees retained by the Asset Manager.

Organizational and Offering Expenses:

The Partnership will bear its organizational and offering expenses, including the out-of-pocket expenses of the General Partner and its agents actually incurred in the formation of the Partnership, up to a cap of \$100,000. Any excess expenses shall be borne by the General Partner. .

Valuation of the Assets:

The Partnership calculates the Fair Market Values of its Units on each Closing Date and Redemption and otherwise from time to time.

Units are issued and redeemed at Fair Market Value per Unit. The General Partner expects that absent extraordinary circumstances, Fair Market Value per Unit will be \$10. However, there is no guarantee that the Partnership can maintain Fair Market Value at \$10 per Unit.

Participation in Syndicated Mortgages:

The Partnership is authorized to participate in mortgage syndications. The syndication may be arranged by a third party or Asset Manager. All mortgage investment opportunities originated by Asset Manager will be allocated to the Partnership in priority to any third party lender, and only where deemed appropriate to achieve optimal investment size and targeted portfolio construction in the Partnership.

Co-Investment:

The Asset Manager, the Mortgage Administrator or any of its officers, shareholders, employees or affiliates (“**RESCO Related Parties**”), may purchase for their own account and own as a co-lender, a percentage interest in any investment held by the Partnership. In respect of such co-investment in mortgages, the Partnership will generally participate in a senior position and the RESCO Related Parties will generally participate in a subordinate position.

Use of Leverage:

The Partnership may pursue a leveraged investment strategy by incurring or issuing debt obligations. This is intended to increase

returns by taking advantage of the difference between the interest earned on the investments made and the cost of borrowing the money to make such investments, provided that the Asset Manager is satisfied that that such strategy is in the best interests of the Partnership, and is likely to enhance the Partnership's profitability.

The Partnership entered into a Credit Agreement with a Schedule I Canadian bank which provides for a revolving credit facility (the "**Credit Facility**") bearing interest at such bank's prime rate plus 1.25% pursuant to which the Partnership may borrow and re-borrow up to \$30,000,000, provided that outstanding borrowings may not exceed a specified percentage of the Partnership's receivables under certain first fixed mortgages on residential properties. The Partnership's obligations under the Credit Facility will be secured by all personal property of the Partnership, including the Partnership's mortgage portfolio. In the event of liquidation or wind-up of the Partnership, the Partnership's creditors (including such bank) will be repaid prior to any distribution or return of capital to the Unitholders or holders of other equity interests in Partnership.

See Item 2.2.1 – "*Mortgages and Lending Arrangements – Use of Leverage*" and Item 9 – "*Risk Factors*".

Other Risk Factors:

The purchase of Units involves a number of risk factors and is suitable only for investors who are aware of the risks inherent in real estate investing and who have the ability and willingness to accept the risk of loss and have no immediate need for liquidity. See Item 9 – "*Risk Factors*".

ITEM 2 BUSINESS OF THE PARTNERSHIP

2.1 Structure

2.1.1 The Partnership

RESCO First Mortgage Fund LP (the “**Partnership**”) is a limited partnership formed under the laws of Ontario on December 10, 2019. The Partnership provides mortgage financing to selected borrowers. RESCO First Mortgage Fund GP Corp. (the “**General Partner**”) is the general partner of the Partnership.

The General Partner was incorporated under the laws of the Province of British Columbia on November 28, 2019. The General Partner may delegate any of its functions to a third party, including a related party to the General Partner. The General Partner is related to each of the Asset Manager and the Mortgage Administrator.

2.1.2 The Asset Manager

The day-to-day management of the Partnership is carried out by Radiance Mortgage Brokerage Inc. (the “**Asset Manager**”, who has been engaged to provide portfolio management and mortgage brokerage services, including sourcing, negotiating, and underwriting mortgages. The Asset Manager was incorporated under the laws of the Province of Ontario and is licensed as a mortgage broker in Ontario (Licence # 12430). See Item 2.7.3 – “*Asset Management Agreement*”.

The Asset Manager is related to each of the General Partner and the Mortgage Administrator.

2.1.3 The Mortgage Administrator

5C Capital Inc. (the “**Mortgage Administrator**”) has been engaged to provide mortgage administration services to the Partnership in respect of its mortgage portfolio. The Mortgage Administrator was incorporated under the laws of the Province of Ontario and is licensed as a mortgage administrator in Ontario (Licence # 12431) and a mortgage broker in Alberta, British Columbia and Manitoba. See Item 2.7.4 “*Mortgage Administration Agreement*”.

The Mortgage Administrator is related to each of the General Partner and the Asset Manager.

2.2 The Business

2.2.1 Mortgages and Lending Arrangements

The investment objective of the Partnership is to acquire and maintain a diversified portfolio of mortgages with the aim of generating income while preserving capital for its investors. Such mortgages may be new loans originated by the Manager, or existing mortgages acquired by the Partnership from third parties on the advice of the Manager.

The demand for private mortgages has increased in recent years due to federal regulatory changes aimed at tightening mortgage lending rules for major financial institutions. The Partnership, as a private lender, is not subject to the strict lending guidelines generally associated with chartered banks and other traditional lenders. The Partnership is therefore better positioned to provide tailored solutions to borrowers than most traditional lenders, and can complete the structuring, due diligence and funding of loans within a shorter timeframe than most chartered banks and traditional lenders.

The Partnership aims to generate returns through mortgage interest and through lender, renewal, and other fees paid by borrowers. The interest rates applicable to the Partnership's mortgage investments are not tied to the prime lending rate of the Bank of Canada. Interest is anticipated to be set based on the overall risk profile of the mortgage application and the overall market demand for private mortgages. The Partnership's mortgage portfolio composition will vary over time, depending on overall market conditions and outlook.

Types of Mortgages

The Partnership will lend exclusively on loans secured by first mortgages secured against residential real estate. In general, the Partnership's mortgage portfolio will consist of mortgages which bear interest at a rate of 7.99% to 9.99% *per annum*, have a one or two-year term, and require monthly interest-only mortgage payments, with the principal amount due upon maturity.

Mortgage Selection Process

The Partnership invests in a mortgage based upon the assessment of the Asset Manager that it is suitable and meets its investment policies and guidelines. See "*Investment Restrictions, Policies and Guidelines*" below. All properties will be evaluated on the basis of certain factors, including but not limited to, the location, quality and prospects for capital appreciation. In addition, the credit of the borrower will also be reviewed and, where appropriate, additional security will be obtained.

In considering a mortgage proposal, the Asset Manager will adhere to strict underwriting policies which include:

1. Obtaining a credit application from the borrower(s) and any guarantor(s);
2. Obtaining a credit report on both the borrower(s) and any guarantor(s);
3. Obtaining an appraisal prepared by an accredited appraiser with the designation of C.R.A. or A.A.C.I. or their successors, or in the alternative from time to time the Asset Manager may rely upon an opinion of value furnished by a reputable realtor who may be equally or better equipped to provide an accurate evaluation of a particular property as a consequence of specialized expertise relating to that particular type of property or with respect to the particular geographic area in which the subject property is located;
4. When applicable, the Asset Manager will obtain a "Purview for Lenders" report by Teranet which confirms property ownership, checks for potential suspicious or fraudulent activity and provides an equity estimate that shows all mortgages including institution name, and date issued on all un-amortized loans on title.

As part of approving each mortgage, the Asset Manager will consider the proposed loan terms and complete a preliminary analysis based on information received from the prospective borrower. If the preliminary analysis is positive, the Asset Manager will complete due diligence, including credit checks, financial statements and personal net worth statements of the prospective borrower(s) and any guarantor(s); internet

searches; third party reports (such as valuation appraisals and surveyor reports) and other documents. The Asset Manager will review the results of due diligence and make a lending decision.

Upon approval by the Asset Manager of a mortgage opportunity, the Partnership will appoint legal counsel to conduct the required enquiries and searches, prepare legal documents and obtain title insurance. The Asset Manager may obtain advice from an insurance consultant whether the current and/or proposed insurance coverage is adequate. The Partnership then advances funds for the mortgage to legal counsel acting on behalf of the Partnership. Legal counsel registers the mortgage and other security documents and ensures all conditions are satisfied before releasing funds to the borrower. After the mortgage funds are advanced, the Mortgage Administrator assumes day-to-day administration of the mortgage.

New mortgage investments are approved by the Asset Manager following the procedures summarized above. The Asset Manager will determine whether the mortgage investment opportunity is suitable for the Partnership, having regard to the Partnership's investment objectives, strategies and restrictions. The Asset Manager invests on behalf of the Partnership in mortgages across Ontario, Manitoba, Alberta and British Columbia, with a view to maintaining a portfolio that is diversified from a geographical, market and product type perspective. The composition of the Partnership's mortgage portfolio might vary from time to time depending upon market conditions and the general Canadian economic outlook. The Asset Manager will re-balance the geographical mix in response to market conditions and opportunities.

Investment Restrictions, Policies and Guidelines

The Partnership has engaged the Asset Manager to build a mortgage portfolio which follows the guidelines and policies below in assessing individual mortgage investment opportunities which will result in the minimization of risk. Subject to the right of the Partnership, in consultation and upon notice to the Manager, to revise the following restrictions from time to time, the Partnership has established certain restrictions on investments that may be made by it as follows:

1. The Partnership's only undertaking will be to invest the Partnership's funds in accordance with its investment objectives, strategies and restrictions;
2. 100% of the Partnership's mortgage portfolio will be first mortgages;
3. 100% of the Partnership's mortgage portfolio will be secured against residential real estate in Canada;
4. The Partnership's mortgage portfolio will not consist of commercial or mixed-use properties; and
5. The Partnership's mortgage portfolio will not consist of land development loans.

Mortgages will be syndicated when it is deemed appropriate to minimize risk. By limiting the Partnership's loan portfolio participation in large individual investments, the Partnership will have the benefits of increased portfolio diversification.

The following conditions will apply to mortgages made by the Partnership:

1. The LTV for any particular mortgage investment will vary depending on a number of factors including the location, marketability and condition of the property. In any event, the Partnership will lend only up to 75% of the value of any particular property as established by an appraisal or an opinion of value.

2. Mortgage repayment schedules will consist primarily of interest-only monthly payments. From time to time, the Partnership will lend on mortgages with repayment schedules of principal and interest, payable monthly and amortized over 15 to 35 years.
3. Although the term of any single mortgage may be longer, mortgage terms will generally be two years or less.
4. Mortgage investments will be denominated in Canadian Dollars.
5. Following funding, all of the Partnership's mortgages will be registered on title to the subject property in the name of RESCO First Mortgage Fund LP, or a nominee bare trustee on behalf of the Partnership including the Mortgage Administrator.
6. In order to renew or extend a mortgage loan, the Partnership may increase the loan amount to cover, among other items, renewal fees, extension fees, or legal fees, so long as any increase in the amount of the loan does not result in the total loan amount exceeding 75% of the most recent valuation of the property.
7. Mortgages in which the Partnership invests may contain clauses permitting the mortgagor, when not in default, to renew the mortgage for additional terms at the sole discretion of the Asset Manager.

In dealing with a default by a borrower of a mortgage within the Partnership's portfolio, the investment policies and practices may change based on individual situations. For example, to mitigate losses that may occur in the power of sale or foreclosure process, the Partnership may advance a new mortgage to a borrower to finance the purchase of the real property with flexible terms at the prevailing market price.

The Partnership, on the advice of the Manager, may from time to time and on such terms as set out by the Manager acting reasonably, sell its investments in mortgages and reinvest the proceeds, acquire investments in mortgages held by other mortgagees, or exchange such investments for other investments in mortgages.

The Partnership's investment policies and practices set out above may be amended, supplemented, replaced or waived from time to time or in respect to specific mortgages on a case-by-case basis by the General Partner.

Risk Mitigation

The Partnership's mortgage portfolio exclusively contains loans secured by first mortgages on residential properties. To mitigate the concentration risk, the Partnership invests in a greater number of smaller mortgages, as opposed to fewer mortgages for larger amounts. This helps to minimize the potential impact of a default under any particular mortgage. To mitigate the risks associated with market trends in any particular geographic area, the Partnership maintains a geographically diversified portfolio. The Partnership's portfolio will include mortgages in Alberta, Manitoba and Ontario. Within Ontario, the Partnership will make mortgage loans in markets across Southwestern Ontario, including the Greater Toronto Area, Guelph, Kitchener, Waterloo, and London.

As an equity lender, the Partnership's lending practice is based more on the marketability and value of the property rather than the income of the borrower. However, the Partnership may request that borrowers provide a copy of their notice of assessment, bank statements, and pay stubs, etc. in order to evaluate their capacity to make their mortgage payments.

The Partnership's capacity to recover its loan investment in the event of a borrower's default depends on the value of the mortgaged property securing that loan. One of the key factors that lenders use to assess the risks associated with a mortgage is to calculate the LTV. The higher the LTV, the greater the risk for the lender. In order to establish an accurate LTV, the Asset Manager obtains an appraisal report on the property to be mortgaged. Appraisals may not be more than 90 days old, and must have been completed by appraiser from a list of approved appraisers determined by the Asset Manager. To further validate the appraised value and ensure the value is not overstated, the Asset Manager will obtain a "Purview for Lenders" report by Teranet which provides the estimated value of the property to be cross-referenced to the appraised value.

The Partnership practices conservative underwriting, especially for the Greater Toronto Area, where the Partnership makes a significant proportion of its mortgage loans.

To further minimize risk, a large portion of the Partnership's mortgage portfolio will be short-term, between one to two years, allowing quick and precise adjustments to changing market conditions. A shorter term reduces the overall exposure to rate changes and other factors, making it a better credit risk than long-term loans.

Use of Leverage

The Partnership may pursue a leveraged investment strategy by incurring or issuing debt obligations against the net book value of the assets. The Partnership may borrow money (including drawing on a line of credit) in an attempt to increase returns by taking advantage of the difference between the interest earned on the investments made and the cost of borrowing the money to make such investments where such financing is available, and it is economical and prudent to do so, provided that the Asset Manager is satisfied that that such debt financing is in the best interests of the Partnership, and is likely to enhance the Partnership's profitability. Such debt financing may take the form of lines of credit from banks and other lending institutions and/or promissory notes and other types of debt contracts with individuals and companies. Debt instruments may be secured against the assets of the Partnership, and in the event of liquidation or wind-up, they will be repaid prior to any distribution or return of capital to the Unitholders or holders of other equity interests in Partnership.

The Partnership entered into a Credit Agreement dated January 27, 2022 with a Schedule I Canadian bank which provides for the Credit Facility, a revolving credit facility bearing interest at such bank's prime rate plus 1.50% pursuant to which the Partnership may borrow and re-borrow up to \$30,000,000, provided that outstanding borrowings may not exceed a specified percentage of the Partnership's receivables under certain first fixed mortgages on residential properties. Amounts outstanding under the Credit Facility are repayable on demand. The Partnership's obligations under the Credit Facility will be secured by all personal property of the Partnership, including the Partnership's mortgage portfolio. The Partnership must comply with certain positive and negative covenants, and meet certain financial covenants in order to maintain the Credit Facility in good standing. In the event of liquidation or wind-up of the Partnership, the Partnership's creditors (including such bank) will be repaid prior to any distribution or return of capital to the Unitholders or holders of other equity interests in Partnership.

The Partnership may fund its activities using funds borrowed under the Credit Facility, and apply the proceeds of the Offering to reduce its indebtedness under the Credit Facility. Similarly, the Partnership may apply funds raised from closings under the Offering to pay amounts outstanding under the Credit Facility pending the identification of acceptable mortgage investment opportunities. The Credit Facility is a revolving credit facility, and accordingly, any funds applied to reduce the Partnership's outstanding indebtedness may be re-advanced to the Partnership as and when required. The Credit Facility is expected to provide the Partnership with flexibility to fund mortgage loans, as well as operating expenses, dividend distributions, and redemptions of Units between closings under the Offering. If the Credit Facility does not

close, the Partnership will continue to fund its operations and use the proceeds of the Offering as described elsewhere in this Offering Memorandum.

Please refer to Item 9 – “*Risk Factors*” for risks associated with the use of leverage.

Co-Investment with Related Lender

RESCO Mortgage Investment Corporation (“RESCO MIC”) is a federal corporation incorporated on November 21, 2013 and is a “Mortgage Investment Corporation” for the purposes of the Tax Act. It commenced raising funds through the offering of its Class “B” Preferred Shares in March 2014.

RESCO MIC is a related party to the Partnership because the shareholders, directors and officers of RESCO MIC are also the shareholders, directors and officers of the General Partner.

RESCO MIC carries on business as a private mortgage lender as the Partnership does, but the lending objectives and guidelines of RESCO MIC differ from those of the Partnership. Whereas the Partnership intends to lend exclusively on residential first mortgages of LTVs up to 75%, RESCO MIC has historically invested in second mortgage (and in rare cases, third mortgages) with LTVs above 75% on both residential and commercial properties, up to a pre-set proportion.

As a result, the General Partner expects that the Partnership and RESCO MIC will be able to offer complementary lending products to borrowers in accordance with each lender’s lending objectives and guidelines. The Asset Manager and the Mortgage Administrator are also engaged by RESCO MIC to provide services similar to those being provided by each of them respectively to the Partnership.

The Partnership may purchase for their own accounts and own a percentage interest in any investment held by RESCO MIC, provided that the Partnership shall at all times hold the senior portion in any mortgage which is presented to the Partnership for investment.

2.2.2 Other Investments

When not invested in mortgages, excess funds may be placed in CDIC insured investments including investments guaranteed by the Government of Canada, a province or territory of Canada, or interest-bearing cash deposits, deposit notes, certificates of deposit notes, certificates of deposit acceptance notes or other similar instrument issued, endorsed or guaranteed by a Schedule I or Schedule II Canadian chartered bank. The Partnership may directly or indirectly hold investments other than mortgages, provided any such investments are consistent with the LPA.

The Partnership shall pay to the Mortgage Administrator, as compensation for its services, an administration fee up to 0.25% *per annum* of the Total Mortgages of the Partnership, calculated, aggregated, and paid monthly in arrears, in each case plus applicable taxes.

The following outlines the Partnership's mortgages by property type:

	Mortgage Principal	Proportion of Mortgage Portfolio
Detached	\$2,807,607.00	64.48%
Semi-Detached	\$0.00	0.00%
Townhouse	\$0.00	0.00%
Low & High-Rise Condo	\$1,546,530.00	35.52%
Total	\$4,354,137.00	100.00%

Due to our prudent and conservative lending practices, delinquency, losses and write-offs have been nominal. Since inception, the Partnership has not sustained any losses through power of sale and foreclosure.

The Partnership does not have any impaired mortgages (mortgages with payments more than 90 days overdue) undergoing enforcement. The Partnership also has accumulated reserves in place to offset possible future losses in order to mitigate negative impact on the rate of return on an investment in Units.

The Partnership has not made any arrangements to accommodate the financial difficulties of any borrower which would be material to a reasonable investor.

2.3.4 Mortgage Industry Trends and Outlook

Industry Trends

Over the past decade, private mortgage lending in Canada has experienced significant growth, driven by factors such as stricter lending regulations and evolving interest rate environments.

Since 2018, the Office of the Superintendent of Financial Institutions (OSFI) has required federally regulated lenders (major banks and credit unions) to apply a mortgage stress test to ensure borrowers can handle potential interest rate increases. This means borrowers must qualify at the higher of (a) the contract rate plus 2%; or (b) the OFSI "floor" rate (5.25% as of the date of this Offering Memorandum). This significantly reduces borrowing power, making it harder for buyers to qualify for the loan amounts they need.

Other aspects of the stress test requires borrowers to not exceed a Gross Debt Service (GDS) ratio of 39% (percentage of total household income paid towards home-carrying costs including mortgage payments, heat and taxes); while also not exceeding a Total Debt Service (TDS) ratio of 44% (percentage of total household income paid towards total debt service which includes mortgage payments, credit cards and all other debt payments).

To meet these stress tests, borrowers must effectively have higher annual household income or home equity. The General Partner expects that buyers who do not meet the stress test for a mortgage from the federally regulated financial institutions will turn to private mortgage lenders such as the Partnership, which are not subject to the government guidelines.

Furthermore, major banks and credit unions have implemented tighter lending rules for non-traditional borrowers. Self-employed borrowers must show at least 2 years of stable income and face higher documentation requirements. New immigrants must have significant Canadian credit history to qualify for mortgages. Commission-based or gig workers are also having difficulties obtaining mortgage approvals due to the unpredictable nature of their income. Private mortgage lenders such as the Partnership are becoming the go-to option for these non-traditional borrowers who do not meet strict institutional lending standards.

The General Partner expects the increased lending opportunities will enable the Partnership to make lower-risk loans (such as mortgages with lower loan-to-value ratios, and to applicants with higher credit scores) on financial terms that are more favourable to the Partnership.

Interest Rates

Between March 2022 and July 2023, the Bank of Canada raised the Overnight Rate from 0.25% to 5.00% to curb inflation. As inflation came under control, the Bank shifted its monetary policy beginning in June 2024, steadily cutting the policy rate to 2.75% as of the date of this Offering Memorandum.

An additional factor influencing the recent rate cut is the 25% tariff imposed by the U.S. administration on Canadian imports, which is expected to have significant economic repercussions. The Bank of Canada has expressed concerns that a prolonged trade dispute with the U.S. could lead to a permanent reduction in GDP, lower economic activity, a weaker Canadian dollar, and increased inflationary pressures. The uncertainty surrounding this trade conflict also raises the risk of capital outflows as businesses consider relocating to the U.S.

To mitigate these challenges and support the economy, the Bank of Canada reduced its key policy rate to 2.75% on April 16, 2025. The full impact of the tariffs remains uncertain and will depend on the duration of the trade conflict, potential Canadian retaliatory measures, and the resilience of the domestic economy.

The General Partner expects that the interest rate cuts in the short to medium term will help ease the burden on borrowers for everything from mortgage payments to credit cards and car loan payments. The General Partner also expects that decreases in overnight rates will lead to a rebound in the volume and prices of home sales, directly increasing the demand for private mortgages such as those offered by the Partnership.

Outlook

The private mortgage sector is poised for continued growth as borrowers seek alternatives outside the traditional banking system. The combination of stringent stress tests and fluctuating interest rates has increased the demand for private mortgage lenders. Borrowers who do not meet the criteria set by traditional financial institutions are turning to private lenders, which often offer more flexible underwriting standards.

This trend is expected to continue, providing private lenders with opportunities to serve a broader range of clients.

2.4 Long-Term Objectives

The Partnership's long-term objective is to provide its Unitholders with a reliable source of income through monthly distributions. The Partnership anticipates continuing to raise funds under this Offering for the foreseeable future and investing all available net proceeds raised in the Partnership as described in Item 2 "*Business of the Partnership*".

In order for the Partnership to accomplish its long-term objectives, the Partnership must complete the short-term objectives described under Item 2.5 "*Short Term Objectives*" below, and the Asset Manager must prudently manage the affairs of the Partnership on an ongoing basis.

2.5 Short Term Objectives

The Partnership's objectives over the next twelve (12) months are to continue to increase its awareness among potential investors and to gain market share. In addition, the Partnership will continue to raise sufficient funds, as required, to make additional investments, and diversify the investment portfolio and Unitholder base. The Asset Manager anticipates that it will be successful in attracting interest from existing client relationships for the Partnership.

The following table sets out the Partnership's objectives over the next twelve (12) months.

What we must do and how we will do it	Target completion date or, if not known, number of months to complete	Our cost to complete
Seek out investors for the Partnership through issuing Units.	Ongoing.	See Item 1.2 – " <i>Use of Available Funds</i> ".
Invest Funds from the sale of Units into mortgages as described under " <i>Business of the Partnership</i> ".	As Funds become available.	See Item 1.2 – " <i>Use of Available Funds</i> ".

2.6 Insufficient Proceeds

The funds available as a result of the Offering may not be sufficient to accomplish all of the Partnership's proposed objectives and there is no assurance that alternative financing will be available. If funds provided by the Offering and cash provided by the Partnership's operations are insufficient to accomplish the Partnership's business objectives, the Partnership expects to rely on credit of up to \$30,000,000 available under the Credit Facility. However, without substantial Offering proceeds, the Partnership will not be able to reduce its indebtedness under the Credit Facility, and its mortgage lending activities could be severely limited.

2.8 Related Party Transactions and Conflicts of Interest

Although none of the officers of the Partnership will devote all of his or her full time to the business and affairs of the Partnership, each will devote as much time as is necessary to manage or advise on the business and affairs of the Partnership.

The Partnership is subject to a number of actual and potential conflicts of interest because the shareholders, directors, and officers of the General Partner are also shareholders, directors, and officers of the Asset Manager and Mortgage Administrator. In addition, the shareholders, directors and officers of the General Partner are also shareholders, directors, and officers of RESCO MIC.

The directors and officers of the General Partner are required by law to act honestly and in good faith with a view to the best interests of the Partnership, and exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. Directors and officers of the General Partner must comply with applicable conflict of interest laws in order to ensure that directors exercise independent judgment in considering transactions and agreements in respect of which a director or officer has a material interest. Any interested director would be required to declare the nature and extent of his interest and would not be entitled to vote at meetings of directors at which matters that give rise to such a conflict of interest are considered.

The Asset Manager

The Asset Manager renders its services to the Partnership as Asset Manager and mortgage broker on a non-exclusive basis under the Asset Management Agreement. The Asset Manager is required to act honestly and in good faith, and in the best interests of the Partnership. The Asset Manager, its directors and officers and its affiliates may, from time to time, provide services to other persons similar to those provided to the Partnership and enter into other advisory relationships or engage in other business activities. The Asset Manager and its affiliates have established and may establish in the future other investment entities which have or may have investment objectives that are the same as or similar to those of the Partnership, and act as adviser and/or Asset Manager to such entities. Such mortgage investment entities may have investment policies similar to those of the Partnership, and may compensate the Asset Manager differently from the Partnership. Pursuant to the Asset Management Agreement, the Asset Manager is permitted to engage in such activities, provided that it meets the standard of care provided for therein, and allocates investment opportunities to the Partnership and to its other clients on a fair and equitable basis.

The Asset Manager will follow procedures designed to ensure an appropriate allocation of available investment opportunities among the Partnership and its other clients. The Asset Manager will allocate available lending opportunities between the Partnership and its other clients by based on each entity's specific investment objectives, restrictions, underwriting criteria and risk appetite, as determined by the Asset Manager, acting reasonably. Where a lending opportunity is suitable for more than one investment entity, the Asset Manager will allocate the opportunity based on factors that it considers to be relevant, at its sole discretion, which may include the availability of alternative suitable investment opportunities, present holdings of the same or similar investments, geographic and industry sector considerations and the liquidity of the investment entity.

In some instances, other entities managed by the Asset Manager may participate as co-investors with the Partnership in an investment. In respect of co-investments in mortgages, the Partnership will generally participate in a senior position and the other investment entities managed by the Asset Manager will generally participate in a subordinate position. Such co-investments may create conflicts of interest.

The Mortgage Administrator

The Mortgage Administrator renders its services to the Partnership and the Asset Manager on a non-exclusive basis under the Mortgage Administration Agreement. The Mortgage Administrator is required to act honestly and in good faith, and in the best interests of the Partnership. However, the Mortgage Administrator, its directors and officers and its affiliates may, from time to time, provide services to other persons similar to those provided to the Partnership and the Asset Manager, and may engage in other business activities, even though such activities may be in competition with the Partnership. Pursuant to the Administration Agreement, the Mortgage Administrator is permitted to engage in such activities, provided that it meets the standard of care provided for therein.

Related Party Transactions

The Asset Manager may cause the Partnership to buy mortgages from or sell mortgages to other investment entities related to the Asset Manager and whose portfolios it manages, based on factors that the Asset Manager in discretion determines to be appropriate. The Partnership will invest in a manner that the Asset Manager believes will allow the Partnership to meet its investment objectives, and comply with its investment restrictions. The Asset Manager may authorize a transaction where it determines that a mortgage investment conforms more closely to another investment entity's specific investment restrictions, underwriting criteria or risk appetite. The terms of such transactions are set by the Asset Manager and are not negotiated or conducted at arm's length. Such transactions will occur at fair market value, as determined by the Asset Manager, acting reasonably. However, other contractual terms that might otherwise be included in the documentation negotiated with an unrelated party might not be included. The Asset Manager

will not receive any fee or commission in connection with transactions in mortgage investments between the Partnership and any other investment entity that it manages.

Investors will be required to rely on the honesty and judgment of the Asset Manager for the fair and equitable allocation of available lending opportunities, whether through mortgage origination or through purchases and sales of mortgages.

ITEM 5 SECURITIES OFFERED

5.1 Terms of Securities

5.1.1 Description of the Units

The beneficial interest in the Partnership is divided into interests issuable as separate Units. The Partnership is authorized to issue an unlimited number of redeemable, non-transferable Class “A” Units and Class “B” Units. Except as otherwise expressly provided below, each Unit represents an equal, undivided interest in the net assets of the Partnership. Fractional Units will be issued.

The Class “A” Units and Class “B” Units each have different characteristics, including but not limited to minimum investment criteria, targeted returns and hold period as described in the LPA and in this Offering Memorandum.

Neither Class “A” Units nor Class “B” units have any preference or priority over the other with respect to the distribution of Distributable Cash from the Partnership. In the event of the liquidation, dissolution or winding up of the Partnership or other distribution of assets of the Partnership among its unitholders for the purpose of winding up its affairs, the holders of the Class “A” Units and Class “B” Units shall share in the remaining property of the Partnership on a *pari passu* basis.

The Class “A” Units and Class “B” Units are available to all investors who meet the respective minimum investment criteria of each class.

Units may be subdivided or consolidated from time to time by the General Partner as otherwise provided in the LPA. Unless otherwise provided for in the LPA and applicable securities laws, the Units are not transferable.

For further information on the attributes of the Units, including redemption policies, please see Item 2.7.2 – “*The LPA*”.

5.1.2 Distribution Policy

The Partnership does not have a fixed distribution. The Partnership may make quarterly distributions as provided in the LPA in such amounts as the General Partner may in its sole discretion determine, in compliance with the following order of priority:

- first, 100% of Distributable Cash to Unitholders until Unitholders have received a return on their Units for such year (in an amount equal to 6.0% *per annum* for Class “A” Units and 6.5% *per annum* for Class “B” Units) of their applicable subscription amount; and
- thereafter, the remaining Distributable Cash to the General Partner (the “**General Partner Distribution**”).

For greater certainty, if there is insufficient Distributable Cash to distribute following the payment Unitholders, the General Partner Distribution will be nil.

For any Unitholder who has been a Unitholder for less than the full year, the distribution amount will be calculated on a pro rated basis.

The amount of any distributions is entirely at the discretion of the General Partner and there can be no assurance that the General Partner will make any distributions.

To the extent that there is sufficient Distributable Cash, the General Partner may, entirely at its discretion, make distributions in excess of 6.0% *per annum* of the applicable subscription amount for Unitholders of Class “A” Units and in excess of 6.5% *per annum* of the applicable subscription amount for Unitholders of Class “B” Units.

The Partnership will generally make distributions quarterly, if any, on or about the 15th day of the month following the end of each financial quarter (i.e. April 15, July 15, October 15 and January 15). Distributions will be paid in cash by direct deposit, certified cheque, money order or bank draft.

There is no assurance of any return on a Unitholder’s investment. The Units are not debt instruments and there is no principal amount owing to Unitholders under the Units. An investment in the Units is not insured through the Canada Deposit Insurance Corporation.

5.1.3 Redemption of Units

Unitholders may not redeem Units during the first twelve months following the issue date of the subject Units. The General Partner may, in its sole discretion, waive such lock up period.

Thereafter, Unitholders may request redemption of all or part of their Units monthly, as at the last business day of each month (each, a “**Redemption Date**”), in accordance with the below provisions and provided that such Redemption Date occurs following the first anniversary of the initial purchase of the Units being redeemed.

In order to exercise this redemption privilege, redemption requests must be received by the Asset Manager at least 90 days prior to the applicable Redemption Date, in such form and with such supporting documents as the Partnership may prescribe, although the Asset Manager in its sole discretion may waive or reduce the notice period. If 90 days' notice is not given, the Asset Manager is not required to consider redeeming the Units until the following Redemption Date after such 90 day notice period.

The amount payable in respect of each Unit redeemed (the “**Redemption Amount**”) is equal to the Fair Market Value of the Unit on the Redemption Date, together with all distributions declared and unpaid as at the Redemption Date. There are no redemption fees, and the Partnership bears its own handling and processing costs, including bank charges. Only whole Units may be redeemed unless the investor’s entire investment is being redeemed. Fair Market Value is determined by Asset Manager in accordance with the LPA.

The Redemption Amount payable for redemption of Class “B” Units more than 12 months but less than 36 months following the issue date of the subject Units shall be subject to a discount in accordance with the following schedule of discounts:

- Where the Redemption Date is between 12 to 24 months after the issue date of the subject Units - 2.0% discount
- Where the Redemption Date is between 24 to 36 months after the issue date of the subject Units - 1.0% discount

The Redemption Amount payable for redemption of Class “A” Units more than 12 months following the issue date of the subject Units are not subject to any discounts.

The Board may, in their sole discretion, waive the discount for any particular redemption request.

There are restrictions and limits on redemption as described below. All redemptions are made subject to and in accordance with the terms of the LPA.

Once paid, such person will cease to be a Unitholder and have no further claims against the Partnership and no further rights to any distributions.

Redemption Restrictions and Limits

Payment of Redemption Amounts for any Redemption Date is subject to the availability of funds. The Partnership is obliged to make all reasonable efforts to meet requests for redemption; however, the Partnership may in certain circumstances defer or delay redemption payments where it determines in good faith that the delay is required to protect the interests of the other investors in the Partnership

The General Partner has the discretion to suspend, reject or defer redemptions of Units where:

- the Partnership has a working capital deficiency or such redemptions would cause the Partnership to have a working capital deficiency;
- such redemptions would cause the Partnership to be in default of its financial obligations under bona fide arm's length loan or credit arrangements; or
- such redemptions are otherwise prohibited under applicable laws.
- There is no obligation to redeem Units on any Redemption Date if:
 - the total amounts to be redeemed on such Redemption Date, together with any amounts requested for redemption on a prior Redemption Date and unpaid as of such Redemption Date, exceeds 5% of the aggregate Fair Market Value of Units outstanding on the Redemption Date (the “**Monthly Redemption Limit**”);
 - the total amounts to be redeemed on such Redemption Date, together with any Redemption Amounts paid in the subject fiscal year, plus the total amount to be redeemed or requested for redemption on a prior Redemption Date and unpaid as of such Redemption Date, exceeds 20% of the aggregate Fair Market Value of Units outstanding as at the beginning of the subject fiscal year (the “**Annual Redemption Limit**”).
- The date on which any redemption payment is made, generally the 15th of any month, is called a “**Redemption Payment Date**”. There may be multiple Redemption Payment Dates in respect of any given Redemption Date, depending on the Redemption Requests received.
- Unless a suspension of redemptions or other similar event is in effect, redemption requests are processed and paid in the order in which they are received.

Redemptions by Partnership

The Asset Manager has the right to require a Unitholder to redeem some or all of the Units owned by such Unitholder on a Redemption Date at the Fair Market Value of such Unit as of the designated Redemption Date, by notice in writing to the Unitholder given at least 30 days before the designated Redemption Date, which right may be exercised by the General Partner in its sole and absolute discretion.

5.1.4 Meetings of Unitholders

The General Partner shall have power at any time to call special meetings of the Unitholders at such time and place in Canada as the General Partner may determine. Such Unitholder meetings may be held in person or electronically, or be a combination of both as the General Partner may determine. The Unitholders

holding in the aggregate not less than 25% of the votes attaching to all outstanding Units (on a fully-diluted basis) may requisition the General Partner in writing to call a special meeting of the Unitholders for the purposes stated in the requisition.

5.2 Subscription Procedure

Subscribers who wish to purchase Units will be required to enter into a Subscription Agreement with the Partnership by completing and delivering the Subscription Agreement and related documentation to the Partnership. The Subscription Agreement contains, among other things, representations and warranties required to be made by the Subscriber that it is duly authorized to purchase the Units, that it is purchasing Units for investment and not with a view for resale, and as to its corporate status or other qualifications to purchase Units on a “private placement” basis. Reference is made to the Subscription Agreement and related documentation, copies of which are available from the Asset Manager, for the specific terms of these representations, warranties and conditions.

The Units are offered only on a private placement basis and only by dealers authorized to offer such private placements of securities. Persons wishing to subscribe for Units under this Offering may do so by completing the following three steps:

- (a) **Subscription Forms** – This Offering Memorandum is for persons who are resident in Canada. To subscribe for Units, investors must complete the Subscription Agreement, including all Schedules.
- (b) **Method for Payment** – A cheque or bank draft made payable to “RESCO First Mortgage Fund LP” must be forwarded to the Asset Manager’s head office in Richmond Hill, Ontario. Payment may also be made by wire order or electronic funds transfer.
- (c) **Submitting Subscriptions** – Completed Subscription Agreements and funds payable to “RESCO First Mortgage Fund LP” must be received by the Partnership at:

360 Highway 7 East, Unit 28
Richmond Hill, Ontario L4B 3Y7

E-mail: info@rescogroup.com

- (d) **Acceptance of Subscriptions and Closings** – Subscriptions may be accepted at the sole discretion of the Asset Manager, and are subject to the terms and conditions of the Subscription Agreement signed by the investor. The authority to accept or reject subscriptions has been delegated to the Asset Manager to ensure that the Partnership maximizes its return for existing investors, and that the Partnership complies with all other relevant securities laws. All subscription proceeds, including where required under NI 45-106 (see below under “*Investor Qualifications*”), will be held in escrow by the Asset Manager until midnight on the second Business Day after the investor delivers the executed Subscription Agreement. If the Asset Manager defers acceptance of a subscription, the investor will be notified and the funds shall be held in escrow and invested in a CDIC insured account pending issuance of Units. If the Asset Manager rejects a subscription, the subscription funds received will be promptly returned to the investor, without interest or deduction, along with notification of the rejection.

This Offering is not subject to any minimum subscription level. Therefore, any funds received from an investor are available to the Partnership and need not be refunded to the investor save and except as required

by the constating documents of the Partnership, the terms of this Offering Memorandum, or as otherwise required by law.

Closings will occur on a continuous basis as subscriptions are received and accepted. It is expected that all accepted subscriptions will be effective on the last day of each month and settled within three Business Days. A prospective investor will become a Unitholder upon execution of a Subscription Agreement, acceptance of the Subscription Agreement by the Asset Manager acting on behalf of the Partnership, payment of the subscription price, and entry of the investor's name in the unitholder register of the Partnership.

All subscription proceeds will be held in escrow until midnight on the second Business Day after the day the Subscriber signs the applicable Subscription Agreement. If Subscribers provide the Partnership with a cancellation notice prior to midnight of the second Business Day after the signing date, or the Partnership does not accept a Subscriber's subscription, all subscription proceeds will be promptly returned to the Subscriber without interest or deduction.

Subscriptions for Units will be received subject to rejection or allotment in whole or in part by the Partnership; and the Partnership reserves the right to close the subscription books at any time without notice. A subscription for Units hereunder is subject to acceptance of a Subscription Agreement by the Partnership and compliance with applicable securities laws. The Subscription Agreement referred to herein contains representations and warranties of the Subscriber, which the Partnership will be relying upon in order to determine the eligibility of the Subscriber.

5.2.1 Canadian Investors

The Units offered by this Offering Memorandum will be issued in accordance with various statutory exemptions contained in the securities legislation of each of the Offering Jurisdictions and the rules and regulations promulgated thereunder. The Offering is limited to residents of Canada.

This Offering is being made in the Offering Jurisdictions in reliance on one or more of the following prospectus exemptions as set out in National Instrument 45-106 – *Prospectus Exemptions* (“**NI 45-106**”), including: (1) the Accredited Investor exemption to those investors that qualify as an “accredited investor” as such term is defined in NI 45-106; (2) the Offering Memorandum exemption; (3) investors that qualify under the “Family, Friends and Business Associates” exemption under NI 45-106; and (4) as may be applicable, the Minimum Amount Investment or Asset Acquisition exemptions. Each Investor relying on the Accredited Investor exemption will be required to certify in the subscription agreement (the “**Subscription Agreement**”) provided herewith that the Investor is an “accredited investor” as defined in NI 45-106. Each Investor relying on the Offering Memorandum exemption will be required to sign the “risk acknowledgement” form as part of the Subscription Agreement. Each Investor relying on the “Family, Friends and Business Associates” exemption will be required to complete the representation letter and sign the “risk acknowledgement” form as part of the Subscription Agreement.

5.2.2 Minimum Initial and Subsequent Investments

The minimum initial subscription for Class “A” Units is 5,000 Units (\$50,000 expected value) and the minimum initial subscription for Class “B” Units is 5,000 Units (\$50,000 expected value). The minimum subsequent investment amount is 2,500 Units (\$25,000 expected value). The Asset Manager will determine, and from time to time may change, the minimum subscription amounts for initial and subsequent investments in any class of Units, for all or any investments, at any time, without notice to investors. At the time of making each additional investment in the Partnership, each Subscriber will be deemed to have

repeated to the Partnership the covenants and representations contained in the Subscription Agreement delivered by the Subscriber to the Partnership at the time of the initial purchase.

The Asset Manager will collect, use and disclose the individual personal information of Investors in accordance with the Partnership's privacy policy and will obtain consent to such collection, use and disclosure from time to time as required by such policy and the law. A copy of the Partnership's current privacy policy will be provided with the subscription agreement and consent will be sought at that time.

Investors should carefully review the terms of the Subscription Agreement provided herewith for more detailed information concerning their rights and obligations. Execution and delivery of the Subscription Agreement will bind Investors to the terms thereof, whether executed by the Investor or by an agent on the Investor's behalf. You should consult with your own professional advisors respecting this investment. See Item 9 – “Risk Factors”.

5.2.3 Proceeds of Crime (Money Laundering) Legislation

In order to comply with Canadian legislation aimed at the prevention of money laundering and terrorist financing, the Partnership or the Asset Manager may require additional information concerning investors. If, as a result of any information or other matter which comes to the Partnership's or the Asset Manager's attention, any director, officer or employee of the Partnership or the Asset Manager knows or suspects that an investor is engaged in money laundering or terrorist financing, such person is required to report such information or other matter to the Financial Transactions and Reports Analysis Centre of Canada (FINTRAC) and such report shall not be treated as a breach of any restriction upon the disclosure of information imposed by law or otherwise.

ITEM 7 INCOME TAX CONSEQUENCES

The following is a general summary of the principal Canadian federal income tax considerations under the Tax Act to an investor acquiring, holding and disposing of Units. This summary only applies to an investor who acquires Units pursuant to this Offering Memorandum, and who, for the purposes of the Tax Act and at all relevant times:

- (a) is or is deemed to be a resident of Canada;
- (b) deals at arm's length and is not affiliated with the Partnership, the General Partner, the Asset Manager and the Mortgage Administrator;
- (c) is the initial investor in the Units;
- (d) acquires and holds Units as capital property; and
- (e) is not exempt from tax under Part I of the Tax Act.

Generally, Units will be considered to be capital property to a holder if acquired for investment purposes and not acquired or held in the course of carrying on a business of trading or dealing in securities or as part of an adventure or concern in the nature of trade.

This summary is not applicable to an investor (i) that is a "financial institution" as defined in subsection 142.2(1) of the Tax Act, (ii) that is a "specified financial institution" as defined in the Tax Act, (iii) that reports its "Canadian tax results", as defined in the Tax Act, in a currency other than Canadian currency, (iv) that has a "significant interest" in the Fund for the purposes of the partnership deferral rules in sections 34.2 and 34.3 of the Tax Act, (v) an interest in which would be a "tax shelter investment" as defined in the Tax Act, or (vi) that has entered into or will enter into, with respect to Units, a "derivative forward agreement" as that term is defined in the Tax Act. Such investors are urged to consult their own tax advisors.

This summary assumes that at all times: (i) the Partnership is a "Canadian partnership" as defined in the Tax Act, (ii) the Partnership (and each Unit) is not a "tax shelter" or "tax shelter investment", each as defined in the Tax Act, (iii) the Partnership is not a "SIFT partnership", as defined in the Tax Act, (iv) Units that represent more than 50% of the fair market value of all interests in the Partnership are held by Unitholders that are not "financial institutions" as defined in subsection 142.2(1) of the Tax Act, and (v) no interest in any Partner is a "tax shelter investment" as defined in the Tax Act. However, no assurances can be given in this regard.

This summary is based upon the current provisions of the Tax Act and the regulations thereunder (the "**Regulations**"), all specific proposals to amend the Tax Act or the Regulations publicly announced by the federal Minister of Finance prior to the date hereof (the "**Proposals**") and the current published administrative policies and assessing practices of the CRA. No assurance can be given that the Proposals will be implemented in their current form, or at all. Except for the Proposals, this summary does not take into account or anticipate any changes in the law whether by judicial, regulatory, governmental or legislative action, nor does it take into account tax laws of any province or territory of Canada, or of any jurisdiction outside Canada. Provisions of provincial income tax legislation vary from province to province in Canada and may differ from federal income tax legislation.

This summary is of a general nature only and is not intended to constitute, nor should it be relied upon or construed as, tax advice to any particular Unitholder, nor is it exhaustive of all possible Canadian federal income tax considerations. This summary does not describe the income tax considerations relating to the deductibility of interest on money borrowed to acquire Units. Unitholders should consult their own tax advisors as to the overall consequences of their acquisition, ownership and disposition of Units having regard to their particular circumstances.

7.1.1 Taxation of the Partnership

The Partnership is not subject to income tax under the Tax Act. However, the Partnership is required to compute its income (or loss) in accordance with the provisions of the Tax Act as if it were a separate person resident in Canada. The fiscal period of the Partnership for purposes of the Tax Act ends on the 31st day of December in each year, and a fiscal period of the Partnership will end on the dissolution of the Partnership.

In computing its income or loss the Partnership will be entitled to deduct expenses incurred by it in the fiscal period in which they are incurred to the extent such expenses are reasonable in amount and their deduction is permitted by the Tax Act.

7.1.2 Taxation of Unitholders

Computation of Income and Loss

Each Unitholder will generally be required to include in computing their income or loss for tax purposes in a taxation year, the share of the income or loss (including taxable capital gains and allowable capital losses) of the Partnership allocated to such Unitholder for each fiscal period of the Partnership that ends in the taxation year of the Unitholder, whether or not the Unitholder has received or will receive a distribution from the Partnership.

Subject to the “at-risk rules” discussed below, a Unitholder’s share of a loss of the Partnership (other than allowable capital losses) for any fiscal period of the Partnership may be deducted from income of the Unitholder from any source to reduce the Unitholder’s net income for the relevant taxation year and, to the extent such loss exceeds net income for that year, carried back three years and forward twenty years and applied against taxable income in such other years, subject to and in accordance with detailed rules in the Tax Act. A Unitholder’s share of allowable capital losses of the Partnership may be applied against taxable capital gains and may be carried back three years or forward indefinitely, subject to and in accordance with detailed rules in the Tax Act.

Notwithstanding the income or loss allocation provisions of the LPA, any losses of the Partnership (other than allowable capital losses) allocated to a Unitholder in respect of a fiscal period of the Partnership ending in a taxation year of the Unitholder will be deductible by such Unitholder in computing income for such taxation year only to the extent that, in general terms, the Unitholder’s share of the loss does not exceed the Unitholder’s “at-risk amount” in respect of the Partnership at the end of the fiscal period of the Partnership ending in the taxation year. In general terms, the “at-risk amount” in respect of the Partnership at the end of a fiscal period of the Partnership is generally equal to (i) the adjusted cost base to the Unitholder of the Unitholder’s Units at that time, plus (ii) subject to certain adjustments, the Unitholder’s share of the income from all sources of the Partnership for the fiscal period, less (iii) subject to certain exceptions, all amounts owing by the Unitholder (or by a person or partnership which does not deal at arm’s length with the Unitholder) to the Partnership (or to a person or partnership that does not deal at arm’s length with the Partnership) and less (iv) subject to certain exceptions, any amount or benefit which the Unitholder (or a person who does not deal at arm’s length with the Unitholder) is entitled to receive where the amount or

benefit is intended to reduce the impact of any loss the Unitholder might sustain by virtue of being a member of the Partnership or of holding or disposing of the Unitholder's Units.

A Unitholder's share of any loss of the Partnership that is not deductible in the year because of the "at-risk rules" is deemed to be the Unitholder's "limited partnership loss" in respect of the Partnership for that year. In general terms, such "limited partnership loss" may be deducted in any subsequent taxation year against any income of the Unitholder for that year to the extent that the Unitholder's "at-risk amount" at the end of the Partnership's fiscal period ending in that year exceeds the Unitholder's share of any loss of the Partnership for that fiscal period.

In general, every member of a partnership must, in accordance with the Regulations, file an information return in prescribed form which contains specified information for each taxation year of the partnership. The General Partner has agreed to file the necessary information return, which will be deemed to have been made by each member of the Partnership. However, the responsibility for filing any required tax returns and reporting the Unitholder's share of the income or loss of the Partnership falls solely upon the Unitholder.

Unitholders should obtain tax advice regarding the potential application of the alternative minimum tax to income from the Partnership, including where the Unitholder has previously been allocated losses from the Partnership.

A Unitholder that is a "Canadian-controlled private corporation" (as defined in the Tax Act) may also be liable to pay an additional refundable tax on the Unitholder's share of certain investment income, including taxable capital gains and interest.

Disposition of Units

Generally, a Unitholder that disposes or is deemed to dispose of Units (including on the redemption of a Unit) will realize a capital gain (or capital loss) on the disposition. The capital gain (or capital loss) will generally be the amount, if any, by which the proceeds of disposition of the Units, net of any reasonable costs of disposition, exceed (or are less than) the adjusted cost base to the Unitholder of the Units immediately before the disposition. The treatment under the Tax Act of capital gains and capital losses is described below under "*Taxation of Capital Gains and Capital Losses*".

Subject to the detailed rules of the Tax Act, the adjusted cost base of Units to a Unitholder is the subscription price of the Units plus the Unitholder's share of any income of the Partnership (including the full amount of any capital gains) for any previously completed fiscal periods, less: (i) the Unitholder's share of the losses of the Partnership (including the full amount of any capital losses) for any fiscal period ending before that time (except where any portion of such losses were included in the Unitholder's "limited partnership loss" in respect of the Partnership as such losses will reduce the adjusted cost base of the Units only to the extent they have been previously deducted) and (ii) any distributions made at any time to the Unitholder by the Partnership. The adjusted cost base of each Unit will be the average of the adjusted cost base of all Units held by a Unitholder. If the adjusted cost base of a Unitholder's Units would otherwise be a negative amount at the end of a fiscal period of the Partnership, the negative amount is deemed to be a capital gain realized by the Unitholder and the adjusted cost base will be increased by the amount of such deemed capital gain.

Taxation of Capital Gains and Capital Losses

Generally, Unitholders will be required to include in computing their income for a taxation year one-half of any capital gain (a "**taxable capital gain**") realized in the year. Subject to and in accordance with the provisions of the Tax Act, a Unitholder is required to deduct one-half of any capital loss (the "**allowable**

capital loss”) realized in a taxation year from taxable capital gains realized in the year by such Person. Allowable capital losses in excess of taxable capital gains may be carried back and deducted in any of the three preceding years or carried forward indefinitely and deducted against taxable capital gains realized in a subsequent year to the extent and under the circumstances described in the Tax Act.

A Unitholder that is a “Canadian-controlled private corporation” (as defined in the Tax Act) throughout a taxation year may be liable to pay a refundable tax on certain investment income including taxable capital gains.

If a Unitholder disposes of Units and the Unitholder, the Unitholder’s spouse or another person affiliated with the Unitholder (including a corporation controlled by the Unitholder) has acquired Units within 30 days before or after the Unitholder disposes of its Units, a capital loss that would otherwise be realized by the Unitholder may be suspended or denied.

Capital gains realized by a Unitholder that is an individual (including certain trusts) on the disposition of Units and amounts designated by the Partnership to a Unitholder as taxable capital gains or dividends from taxable Canadian corporations may give rise to alternative minimum tax.

7.1.3 Eligibility for Investment by Registered Plans

The Units are not eligible for a trust governed by a registered retirement savings plan, a registered retirement income fund, a registered education savings plan, a registered disability savings plan, a tax-free savings account, or a deferred profit sharing plan (each as defined in the Tax Act).

7.1.4 Tax Information Reporting

Pursuant to the Canada-United States Enhanced Tax Information Exchange Agreement and related Canadian legislation found in Part XVIII of the Tax Act, “reporting Canadian financial institutions” have certain due diligence and reporting obligations in respect of their “U.S. reportable accounts”. The Partnership may fall within the meaning of “reporting Canadian financial institution” and may be required to provide information to the CRA in respect of Unitholders who are “US reportable accounts”. Accordingly, certain Unitholders (individuals and certain entities) may be requested to provide information to the Partnership and/or their registered dealer relating to their citizenship, residency and, if applicable, a U.S. federal tax identification number or such information relating to controlling persons in the case of certain entities. If a Unitholder (or a controlling person of a Unitholder in the case of certain entities) is a U.S. person (including a U.S. citizen) or if a Unitholder does not provide the requested information, Part XVIII of the Tax Act generally requires information about the Unitholder’s investments to be reported to the CRA. The CRA is expected to provide that information to the U.S. Internal Revenue Service.

There are also due diligence and reporting obligations included in Part XIX of the Tax Act that implement the OECD Common Reporting Standard (“CRS”) which provides for the implementation of the automatic exchange of tax information applicable to residents of certain countries other than Canada or the United States. Accordingly, certain Unitholders (individuals and certain entities) may be requested to provide information to the Partnership or their registered dealer regarding their residency for tax purposes including their tax identification numbers (or such information relating to controlling persons in the case of certain entities). If a Unitholder (or a controlling person of a Unitholder in the case of certain entities) is tax resident in a foreign country (other than the U.S) or if a Unitholder does not provide the requested information, Part XIX of the Tax Act generally requires information about the Unitholder’s investment to be reported to the CRA. The CRA is expected to provide that information to countries that have adopted the CRS.

If a Unitholder does not provide the information required to comply with these obligations under Part XVIII and/or Part XIX of the Tax Act, as the case may be, the Unitholder's Units may be redeemed at the sole discretion of the Asset Manager.

ITEM 8 COMPENSATION PAID TO SELLERS AND FINDERS

The Units will be sold by Registered Dealers that may be duly authorized by the Partnership, from time to time, through certain non-exclusive agency or distribution agreements under which the Registered Dealers would offer the Units for sale to Subscribers on a commercially reasonable best efforts basis.

For Class "A" Units, where permitted by securities legislation of a jurisdiction, the Partnership will pay the following commission to Registered Dealers who refers Subscribers resident in such jurisdiction that results in a sale of Units to Subscribers under this Offering:

- a) an upfront commission, at the discretion of the Asset Manager, of no greater than one percent (1%) of the gross subscription proceeds; and
- b) a semi-annual trailing commission of up to 0.50% of the book value of Units held by investors who purchased their Units from the Registered Dealer. Such trailing commission is payable at the end of each six-month period that the applicable Units have been held by the investor after the initial twelve months. No trailing commission will be payable on Units which have been redeemed or otherwise transferred, withdrawn or returned.

For Class "B" Units, where permitted by securities legislation of a jurisdiction, the Partnership will pay an upfront commission of up to four percent (4.00%) of the gross subscription proceeds to Registered Dealers who refers Subscribers resident in such jurisdiction that results in a sale of Units to Subscribers under this Offering.

The Partnership is responsible for the payment of upfront commissions to Registered Dealers, which will accordingly reduce the investment proceeds available to the Partnership. Trailing commissions, if any, are expected to be paid from the income generated by mortgage investments.

ITEM 9 RISK FACTORS

There are certain risks inherent in an investment in the Units and in the activities of the Partnership, which investors should carefully consider before investing in the Units. The following is a summary only of the risk factors. Prospective investors should review the risks relating to an investment in the Units with their legal and financial advisors.

The Partnership advises that prospective Subscribers should consult with their own independent professional legal, tax, investment and financial advisors before purchasing Units in order to determine the appropriateness of this investment in relation to their financial and investment objectives and in relation to the tax consequences of any such investment.

In addition to the factors set forth elsewhere in this Offering Memorandum, prospective Subscribers should consider the following risks before purchasing Units. Any or all of these risks, or other as yet unidentified risks, may have a material adverse effect on the Partnership's business, and/or the return to the Subscribers.

9.1 Investment Risk

Risks that are specific to the Units being offered under this offering include:

- (a) ***Absence of Market for Units*** – There is no public market for the Units. The Units are not listed on a stock market or quoted on any public market in Canada or elsewhere.
- (b) ***Liquidity*** – Unitholders have the right to require the Partnership to redeem their Units upon prescribed notice to the Partnership as set forth in Item 5.1 “*Terms of Securities*”. The Partnership provides no assurance that any Unitholder will be able to redeem any or all of their Units at any time. Redemption is subject to the availability of funds and compliance with the applicable corporate, tax and securities legislation.
- (c) ***No Guarantees*** – There is no assurance that the Partnership will be able to pay distributions at levels targeted by the Partnership or at all. The funds available for distribution to Unitholders will vary according to many factors (including the interest and principal payments received in respect of mortgage loans indirectly held by the Partnership and the rate of return on the Partnership’s cash balances, among other factors). Although mortgage loans and equity investments made by the Partnership are carefully selected by the Asset Manager, there can be no assurance that such loans or investments will have a guaranteed rate of return to investors or that losses will not be suffered on one or more loans or investments. Moreover, at any point in time, the interest rates being charged for mortgages are reflective of the general level of interest rates and, as interest rates fluctuate, it is expected that the aggregate yield on mortgage investments will also change. In the event that additional security is given by the borrower or that a third party guarantees the mortgagor’s obligations, there is no assurance that such additional security or guarantee will be sufficient to make the Partnership whole if and when resort is to be had thereto.
- (d) ***Lack of Separate Legal Counsel*** – Counsel for the Partnership does not purport to have acted for the Investors or to have conducted any investigation or review on their behalf.
- (e) ***Leverage by the Partnership*** – The Partnership may from time to time borrow under loans with Canadian chartered banks and others. See Item 2.2.1 – “*Mortgage and Lending Arrangements – Use of Leverage*”. Through the Credit Facility and/or similar loans, the Partnership intends to borrow to the extent that the Asset Manager is satisfied that such borrowing and additional investments will increase the overall profitability of the Partnership. The obligations under such loans may be secured, and while the addition of leverage has the potential to enhance returns, it also involves additional risks. For example, due to the varying loan maturities and constant fluctuations in interest rates, there is no assurance that the interest received by the Partnership on its mortgage investments will always exceed the interest the Partnership pays on loans that it may have previously taken out to finance mortgage investments. Therefore, there can be no assurance that the leveraging employed by the Partnership will enhance returns, and to the extent that secured lenders realize on their respective collateral, they will have right to receive distributions in priority to the Unitholders in addition to the right to seize mortgage assets pursuant to security agreements with the Partnership.
- (f) ***International Trade Policies*** – The Partnership’s business, operations and financial condition could be materially adversely affected by changes to international trade policies, including the implementation of significant tariffs on Canada by the United States and other foreign governments.

Such changes to international trade policies can lead to economic uncertainty, layoffs, supply chain disruptions and higher costs of living, which could result in economic slowdowns or recessions on the macroeconomic level, possibly on a global scale.

In such circumstances, Canadian real estate market activity could be curtailed, and property prices could drop. Further impacts could include the inability of borrowers to make mortgage payments, decreases in the fair value of our mortgage investments or the underlying real estate provided as security for those mortgages; all of which could potentially lead to future decreases in revenue or the profitability of our ongoing operations.

- (g) **Public Health Crises** – The Partnership’s business, operations and financial condition could be materially adversely affected by the outbreak of epidemics or pandemics or other health crises beyond our control, including the recent outbreak of COVID-19.

Such public health crises can result in volatility and disruptions in the supply and demand for various products and services, global supply chains and financial markets, declining trade and market sentiment and reduced mobility of people, or a fear of any of the foregoing, all of which could affect interest rates, credit ratings, credit risk and inflation.

Further impacts could include the inability of borrowers to make mortgage payments, decreases in the fair value of our mortgage investments or the underlying real estate provided as security for those mortgages; all of which could potentially lead to future decreases in revenue or the profitability of our ongoing operations. The risks to the Partnership of such public health crises also include risks to employee health and safety and a slowdown or temporary suspension of operations in geographic locations impacted by an outbreak.

9.2 Issuer Risk

Risks that are specific to the Partnership include the following:

- (a) **Reliance on third parties** - In assessing the risk of an investment in the Partnership, potential investors should be aware that they will be relying on the good faith, experience and judgment of certain staff of the Asset Manager. Should these staff be unable or unwilling to continue their employment with the Asset Manager, this could have an adverse effect on the Partnership’s business, financial condition and results of its operations, which in turn may adversely affect the Partnership’s ability to perform its obligations and its ability to maintain distributions on the Units at a consistent and desirable level. The competition for such key qualified personnel is intense and there can be no assurance of success in attracting, retaining, or motivating such individuals. Failure in this regard would likely have a material adverse effect on the Partnership’s business, financial condition and results of operations which in turn may adversely affect the Partnership’s ability to perform its obligations and its ability to maintain distributions on the Units at a consistent and desirable level.
- (b) **Debt financing risk** – The Partnership’s indebtedness under the Credit Facility will be repayable upon demand by the lender. If the Partnership is unable to meet interest or principal payments, it could be required to seek renegotiation of such payments or obtain additional equity, debt or other financing. The Credit Facility is expected to be secured against all of the personal property of the Partnership, including its mortgage portfolio, entitling the lender to seize such assets in the event of the Partnership’s default. The failure of the Partnership to make or renegotiate interest or principal payments or obtain additional equity, debt or other financing could have a material adverse effect on the Partnership’s

business, cash flows, financial condition and results of operations and ability to make distributions to Unitholders.

- (c) **Interest rate risk** – To the extent that the Partnership borrows money under the Credit Facility or other variable rate debt, interest rates changes will result in fluctuations in the Partnership's cost of borrowing. To the extent that interest rates rise, there may be a material adverse effect on the Partnership's business, cash flows, financial condition and results of operations and ability to make distributions to Unitholders.
- (d) **Conflicts of interest** - The Asset Manager is required to satisfy a standard of care in exercising its duties with respect to the Partnership. However, neither the Asset Manager nor its officers, directors, affiliates, or employees are required to devote all or any specified portion of their time to their responsibilities relating to the Partnership. The Asset Manager and its officers, directors, affiliates, or employees may undertake financial, investment or professional activities which give rise to conflicts of interest with respect to the Partnership.

Certain inherent conflicts of interest arise from the fact that the Asset Manager may carry on investment activities for other clients (including RESCO MIC and other investment entities managed by the Asset Manager) in which the Partnership will have no interest. Future investment activities by the Asset Manager, including the establishment of other investment entities, may give rise to additional conflicts of interest.

The Asset Manager may engage in the promotion, management or investment management of or provide other services to investment entities. These competing entities may have investment policies similar to those of the Partnership, and the Asset Manager may be compensated in a different manner in respect of those entities. Accordingly, there may be instances in which an investment opportunity may be suitable for the Partnership as well as other mortgage lenders or investors with whom the Partnership and/or the Asset Manager has business relations. In such cases, the Asset Manager will follow procedures designed to ensure an appropriate allocation of available investment opportunities among the Partnership and competing investment entities, but it ultimately has sole discretion to take such action as it sees fit. Additionally, other entities managed by the Asset Manager may participate as co-investors with the Partnership in investments. Such co-investments may create conflicts of interest.

Transactions between the Partnership, Asset Manager, Mortgage Administrator, and other entities managed by the Asset Manager may be entered into without the benefit of arm's length bargaining. There can be no assurance that will result in the Partnership obtaining outcomes as good as it might otherwise obtain if such determinations had been made and transactions negotiated on an arm's-length basis.

There is no assurance that any conflicts of interest that may arise will be resolved in a manner most favourable to Unitholders. Persons considering a purchase of Units pursuant to this Offering must rely on the good faith, experience, and judgment of the Asset Manager in resolving such conflicts of interest as may arise.

The Partnership has agreed that neither the Asset Manager nor the Mortgage Administrator will be liable to the Partnership for default under the Asset Management Agreement or Mortgage Administration Agreement, respectively, due to the Asset Manager, the Mortgage Administrator, or any of their respective directors, officers, or their affiliates, engaging in business activities outside of their provision of services to the Partnership,

even though such activities may be in competition with the Partnership or involve substantial time and resources, so long as they meet the standards of care respectively provided for in the Asset Management Agreement and the Mortgage Administration Agreement.

- (e) ***Tax Related Risks*** - There can be no assurance that tax laws and administrative policies and assessing practices of taxing authorities will not be changed in a manner that adversely affects the Partnership or Unitholders.

There can be no assurance that taxing authorities will agree with the tax treatment adopted by the Partnerships or the Partnership in its tax filings. Any disagreement could result in additional tax being payable by the Partnership or by Unitholders. A reassessment may result in the Partnership being liable for unremitted withholding tax on prior distributions to non-resident Unitholders.

9.3 Industry Risk

There are also risks faced by the Partnership related to the industry in which it operates. Real estate values are subject to fluctuation owing to a variety of supply and demand factors impacting real estate markets. In addition, prospective Investors should take note of the following:

- (a) ***Competition*** – The Partnership competes with others in the real estate business, such as developers seeking opportunities in Ontario and elsewhere in Canada. There is no assurance that the number of mortgages required to maintain an optimal level of investment will be funded, and this could have an adverse effect on the Partnership's businesses, financial condition and results of operations which in turn may adversely affect the Partnership's performance and its ability to maintain distributions on the Units at a consistent and desirable level.

Such third parties may have greater name recognition and greater financial, managerial and technical resources than the Partnership. Competitors may reduce the interest rates that they charge, resulting in a reduction in the Partnership's share of the market, reduced interest rates on loans and reduced profit margins.

- (b) ***Sensitivity to interest rates*** – It is anticipated that the value of the Partnership's portfolio at any given time may be affected by the level of interest rates prevailing at such time. A substantial portion of the Partnership's income will consist primarily of interest payments on the mortgages comprising the portfolio. If there is a decline in interest rates (as measured by the indices upon which the interest rates of the Partnership's mortgage assets are based), mortgage loan rates may decrease, affecting the Partnership's returns. There can be no assurance that an interest rate environment in which there is a significant decline in interest rates would not adversely affect the Partnership's results of operations which in turn may adversely affect the Partnership's ability to maintain distributions on the Units at a consistent and desirable level. Due to the term of the mortgages made by the Partnership and the inability to accurately predict the extent to which the Partnership's mortgages may be prepaid, it is possible that the Partnership may not be able to sufficiently reduce interest rate risk associated with the replacement of such mortgages through new investments in mortgages.
- (c) ***Changes in property values*** – The Partnership's mortgage loans will be secured by real estate, the value of which can fluctuate. The value of real estate is affected by general

economic conditions, local real estate markets, the attractiveness of the property to tenants where applicable, competition from other available properties, fluctuations in occupancy rates, operating expenses and other factors. While independent appraisals will be required before the Partnership makes a mortgage investment, the appraised values, even where reported on an “as is” basis, are not necessarily reflective of the market value of the underlying real property, which may fluctuate. In addition, the appraised values reported in independent appraisals may be subject to certain conditions, including the completion, rehabilitation or making of leasehold improvements on the real property providing security for the loan. There can be no assurance that these conditions will be satisfied and, if and to the extent they are not satisfied, the loan amount may prove to exceed the value of the underlying real property thus resulting in a loan loss if the property must be sold to remedy a mortgage default. Even if such conditions are satisfied, the appraised value may not necessarily reflect the market value of the real property at the time the conditions are satisfied.

- (d) ***Environmental liability*** – Under various laws, the Partnership could become liable for the costs of effecting remedial work necessitated by the release, deposit or presence of certain materials, including hazardous or toxic substances and wastes, where the Partnership has exercised its right of re-entry or foreclosure or has otherwise assumed the control, occupation or management of the property. While the Partnership may obtain a Phase I environmental audit where there is a reasonable possibility of environmental contamination that might impact the value and marketability of a property, the Partnership does not systematically obtain environmental audits of all properties subject to mortgages.
- (e) ***Investment not insured*** – Neither the Asset Manager nor the Partnership is a member of the Canada Deposit Insurance Corporation and the Units offered hereunder are therefore not insured against loss through the Canada Deposit Insurance Corporation. Moreover, mortgages held by the Partnership are not insured through the Canada Mortgage and Housing Corporation or otherwise.
- (f) ***Renewal of Mortgages*** – There can be no assurances that any of the mortgages held by the Partnership can or will be renewed at the same interest rates and terms, or in the same amounts as are currently in effect. With respect to each mortgage held by the Partnership, it is possible that either the mortgagor, the mortgagee, i.e. the Partnership, or both, will elect not to renew such mortgage. In addition, if the mortgages in the Partnership’s portfolio are renewed, the principal balance of such renewals, the interest rates and the other terms and conditions of such mortgages will be subject to negotiations between the mortgagors and the mortgagees at the time of renewal and the terms of a refinancing may therefore not be as favourable as the terms of existing indebtedness.
- (g) ***Nature of the investments*** – Investments in mortgages are relatively illiquid. Such illiquidity will tend to limit the Asset Manager’s ability to vary the mortgage portfolio promptly in response to changing economic or investment conditions. Furthermore, certain significant expenditures, including property taxes, capital repair and replacement costs, maintenance costs, mortgage payments, insurance costs and related charges must be made throughout the period of ownership of real property regardless of whether the property is producing income or whether mortgage payments are being made. The Partnership may be required to incur such expenditures to protect its investment, even if the borrower is not honouring its contractual obligations.

- (h) ***Specific investment risk for non-conventional mortgage investments*** – Non-conventional mortgage investments attract higher loan loss risk. This higher risk is compensated for by a higher rate of return. The failure of one or more borrowers to make payments according to the terms of their loan could result in the Partnership exercising its rights as mortgagee and may adversely affect the Partnership’s rate of return, which is directly correlated to the Partnership’s receipt of mortgage payments. Also, the recovery of a portion of the Partnership’s assets, i.e. the property put up as collateral by the defaulting mortgagor, would be tied up for a period of time, diverting resources away from the funding of new investments. Legal fees and other costs incurred by the Partnership in enforcing its rights as mortgagee against a defaulting borrower are indirectly borne by the Partnership. Although these fees and costs are often recoverable from the borrower directly or through the sale of the mortgaged property by power of sale or otherwise, there is no assurance that they will actually be recovered. Due to fluctuations in the housing market and the economy generally, there is a possibility that historical loan default rates may increase and that in any power of sale, the Partnership could lose a substantial portion of the principal amount loaned to the borrower. Excessive loan loss could affect materially the Partnership’s business, financial condition and results of operations which in turn may adversely affect the Partnership’s ability to perform its obligations and its ability to maintain distributions on the Units at a consistent and desirable level. Deferred Lending Fees may reduce the amount of equity participation, and conversely, the full amount of success fees (Structured Interest) payments may not be realized.
- (i) ***Priority over security*** – The Partnership will generally make loans only in situations where it will receive a first charge on the property. However, any real property may be or become subject to one or more liens which will take priority over a mortgage, even a first-ranking one. Such liens may arise, for example, as a result of unpaid municipal taxes or utility bills. It is possible for the lienholder to take a number of actions against the borrower and ultimately against the underlying real property. Such actions may include foreclosure, the exercising of a giving-in-payment clause or an action forcing the underlying real property to be sold (known as a “**power of sale**”). Foreclosure or the exercise of a power of sale may have the ultimate effect of partially or completely depriving any person, even the holder of a first-ranking charge on the underlying real property, of the security of such real property. If an action is taken to sell the underlying real property and sufficient proceeds are not realized from such sale to pay off lienholders ranking prior to the Partnership, the Partnership may lose all or part of its investment to the extent of such deficiency, unless it can otherwise recover such deficiency from other property owned by the borrower.

ITEM 10 **REPORTING OBLIGATIONS**

The Partnership is not subject to continuous reporting and disclosure obligations which the securities legislation in any province would require of a “reporting issuer” as defined in such legislation and there is therefore no requirement that the Partnership make disclosure of its affairs, including, without limitation, the prompt notification of material changes by way of press releases and formal filings. The Partnership is required to comply with certain disclosure requirements, including disclosure of such information, financial statements and documents as required by applicable securities laws for a non-reporting issuer that distributes securities using the Offering Memorandum Exemption. The Partnership makes available to Unitholders audited annual financial statements for the Partnership and such other reports and information as the Asset Manager may determine.

Annually, each Unitholder receives a report from the Asset Manager discussing the performance of the Partnership during the previously completed financial year. The financial year of the Partnership ends on the 31st of December of each year.

ITEM 11 RESALE RESTRICTIONS

These securities will be subject to a number of resale restrictions, including a restriction on trading. Until the restriction on trading expires, you will not be able to trade the securities unless you comply with an exemption from the prospectus and registration requirements under securities legislation. The Partnership will not become a reporting issuer upon completion of this offering and does not currently anticipate ever becoming a reporting issuer. **The resale restriction on the securities may therefore never expire.**

Furthermore, unless permitted under securities legislation, in Manitoba, you must not trade the Units without the prior written consent of the regulator in Manitoba unless:

- (a) the Partnership has filed a prospectus with the regulator in Manitoba with respect to the Units you have purchased and the regulator in Manitoba has issued a receipt for that prospectus, or
- (b) you have held the Units for at least twelve (12) months.

The regulator in Manitoba will consent to your trade if the regulator is of the opinion that to do so is not prejudicial to the public interest.

Requests to transfer Units of the Partnership will be acceded to by the Partnership provided that the requested transfer of Units does not contravene any law, rule, policy or regulation prescribed by any applicable securities commission or the provisions of any other applicable laws. For greater certainty, the terms “transfer” and “transferred” shall not be construed so as to include a tender of Units by a Unitholder for the purpose of their redemption by the Partnership.

The Partnership is not a “reporting issuer”, as such term is defined under applicable Canadian securities laws, in any province or territory of Canada. Investors are advised that the Partnership currently does not intend to file a prospectus or similar document with any securities regulatory authority in Canada qualifying the resale of the Units to the public in any province or territory of Canada in connection with this offering, nor does the Partnership otherwise intend on becoming a reporting issuer. As it is not anticipated that the Partnership will become a reporting issuer, the hold period for the Units may never expire and you will not be able to trade or resell your Units unless you comply with an exemption from the prospectus and registration requirements under applicable securities legislation. Accordingly, it is expected that the sole method of liquidation of an investment in Units will be by way of redemption of the Units.

Purchasers should consult their legal advisors to determine the resale restrictions, availability of further exemptions or the possibility of obtaining a discretionary order.

ITEM 12 PURCHASERS’ RIGHTS

If you purchase these securities, you will have certain rights, some of which are described below. For information about your rights, you should consult a lawyer.

Two Day Cancellation Right

You can cancel your agreement to purchase the Units offered pursuant to this Offering Memorandum. To do so, you must send a notice to the Asset Manager by midnight on the second business day after you sign the subscription agreement to buy the Units.

Statutory Rights of Action in the Event of a Misrepresentation

Any Marketing Materials related to this Offering which are delivered or made reasonably available to a purchaser before the closing of that purchaser's subscription for Units are deemed to be incorporated by reference in this Offering Memorandum. As used herein, "Marketing Materials" has the same meaning as "OM marketing materials" has in NI 45-106.

Securities legislation in certain of the Canadian provinces provides certain purchasers of securities pursuant to an offering memorandum (such as this Offering Memorandum) with a remedy for damages or rescission, or both, in addition to any other rights they may have at law, where the offering memorandum and any amendment thereto contains a "misrepresentation", as defined in the applicable securities legislation. A "misrepresentation" is generally defined in the applicable securities legislation to mean an untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make any statement not misleading in light of the circumstances in which it was made. These remedies, or notice with respect to these remedies, must be exercised or delivered, as the case may be, by the purchaser within the time limits prescribed by applicable securities legislation. See Appendix A.

INDEPENDENT AUDITORS' REPORT

To the partners of RESCO First Mortgage Fund LP,

Opinion

We have audited the statement of financial statements of RESCO First Mortgage Fund LP ("the Limited Partnership") which comprise the statement of financial position as at December 31, 2024, and the statements of comprehensive income and partners' equity, and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of RESCO First Mortgage Fund LP as at December 31, 2024 and the results of its operations and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Limited Partnership in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing these financial statements, management is responsible for assessing the Limited Partnership's ability to continue as a going concern, disclosing, as applicable, matters related to a going concern and using the going concern basis of accounting unless management either intends to liquidate the Limited Partnership or to cease operations, or has no realistic alternative to do so.

Those charged with governance are responsible for overseeing the Limited Partnership's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Limited Partnership's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Limited Partnership's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Limited Partnership to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

RESCO FIRST MORTGAGE FUND LP

Notes to Financial Statements

For the year ended December 31, 2024

1. Limited partnership

Resco First Mortgage Fund LP (the "Limited Partnership") is a limited partnership established under the laws of the Province of Ontario on December 10, 2019 and governed by an amended and restated limited partnership agreement ("Limited Partnership Agreement") dated February 28, 2020. The address of the Limited Partnership's registered office is 360 Highway 7 East, Unit 28, Richmond Hill Ontario. The Limited Partnership's general partner is Resco First Mortgage Fund GP Corp. (the "General Partner").

The Limited Partnership was formed for the purpose of investing in residential mortgages and is managed by Radiance Mortgage Brokerage Inc. (the "Manager"), a corporation formed under the laws of the Province of Ontario. The Manager provides portfolio management and mortgage brokerage services. The General Partner has also engaged 5C Capital Inc. ("the Administrator"), a corporation formed under the laws of the Province of Ontario, to provide mortgage administration services.

2. Summary of significant accounting policies and basis of presentation

Statement of compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

Functional and presentation currency

The financial statements are presented in Canadian dollars, which is the functional currency of the Limited Partnership.

Basis of measurement

The financial statements have been prepared on a historical cost basis, except for financial instruments at fair value through profit or loss are measured at fair value with changes in fair value. The methods used to measure fair values are discussed in note 5.

Use of estimates and judgments

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may vary from these estimates.

Fair value of mortgage receivable

The Limited Partnership is required to make estimates relating to the fair value of mortgages receivable. These estimates may include assumptions regarding local real estate market conditions, interest rates and the availability of credit, cost and terms of financing, the impact of present and future legislation or regulation, prior encumbrances and other factors affecting the investments and underlying security of the investments. These assumptions are limited by the availability of reliable comparable data, economic uncertainty, ongoing geopolitical concerns and the uncertainty of predictions concerning future events. By their nature, estimates of fair value are subjective and do not necessarily result in precise determinations. Should the underlying assumptions change, the estimated fair value could vary by a material amount.

Notes to Financial Statements

For the year ended December 31, 2024

2. Significant accounting policies (continued)

Expected credit losses on mortgage receivables

The Limited Partnership assesses the impairment and extent of losses on mortgages at each reporting date, and books a provision for mortgage losses accordingly. Judgement by management is required in assessing where there has been a significant increase in credit risk when a mortgage is impaired. Estimates are required to determine the amount and timing of future cash flows when determining losses. In estimating future cash flows, the Corporation makes judgements about the borrower's financial situation and the net realizable value of collateral. These estimates are based on assumptions about a number of factors and actual results may differ, resulting in future changes to the provision.

3. Significant accounting policies

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments are recognized in accordance with IFRS 9.

Recognition and initial measurement

Financial instruments are recognized on the date of origination at the fair value of consideration exchanged. Except for financial instruments carried at fair value through profit or loss, the initial measurement includes transaction costs that are directly attributable to its issuance.

Classification and subsequent measurement

Under IFRS 9, classification of financial assets is determined based on:

- (i) the business model under which the assets is held; and
- (ii) the contractual cash flow characteristics of the instrument

The Company's financial assets are predominantly comprised of mortgages receivable. Mortgages are managed in order to generate cash flows from collection of contractual cash flows. Contractual cash flows are consistent with basic lending arrangements and represent cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Accordingly, mortgages receivable are classified as amortized cost instruments using the effective interest rate method.

All other financial assets and liabilities are classified as amortized cost instruments.

Impairment of financial assets

The Company recognizes expected credit losses (ECL) at an amount equal to 12 month ECL, if the credit risk on a mortgage at the reporting date has not increased significantly since initial recognition (Stage 1). A lifetime ECL is recorded on performing mortgages which are considered to have experienced a significant increase in credit risk (Stage 2) and on credit impaired financial assets (Stage 3).

The main factors considered in determining a significant increase in credit risk include relative changes in probability of default since origination and certain other criteria such loan delinquency.

Evidence of a significant increase in credit risk include factors such as:

- significant financial difficulty of the borrower;
- default or delinquency in interest or principal payments;
- high probability of the borrower entering a phase of bankruptcy or a financial reorganization; and/or
- measurable decrease in the estimated future cash flows from the loan or underlying assets that back the mortgage.

RESCO FIRST MORTGAGE FUND LP

Notes to Financial Statements

For the year ended December 31, 2024

3. Significant accounting policies (continued)

Generally, mortgages overdue for 30 days are considered Stage 2 mortgages and those overdue by 90 days are considered impaired (Stage 3). However, a mortgage overdue by 90 days or more may be considered Stage 2 if the liquidation value of the collateralized assets is sufficient to prevent mortgage losses. All other performing assets are considered Stage 1.

Credit loss calculations are outputs of models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. The expected credit loss impairment model reflects the present value of all cash shortfalls related to default events over the expected life of a financial instrument.

The probability of default ("PD"), exposure at default ("EAD"), and loss given default ("LGD") inputs used to estimate expected credit losses are modelled based on macroeconomic variables that are most closely related with credit losses in the relevant portfolio. The measurement of expected credit losses considers information about past events and current conditions as well as reasonable and supportable forecasts of future events and economic conditions. The estimation and application of forward-looking information requires significant judgement.

Presentation of allowance for ECL

Mortgages receivable are presented on a net basis, where the loss allowances for ECL (the "provision for mortgage losses") are deducted from the gross carrying amount of the assets.

Write-offs

Mortgages are written off when there is no realistic prospect of recovery. This is generally the case when the Company determines that the borrower does not have assets or a source of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities.

Revenue recognition

Mortgage interest is recognized in the statement of comprehensive income using the effective interest method.

Referral fee

Referral fees are paid in connection with raising of limited partnership capital. The fees are amortized over the period that early redemption fees are charged. The amount not yet amortized is recognized as a deduction from equity.

Provisions and contingent liabilities

Provisions and contingent liabilities are recognized when there is a present legal or constructive obligation arising as a result of a past event for which it is probable that an outflow of economic benefits will be required to settle the obligation and where a reliable estimate can be made of the amount of the obligation. Provisions and contingent liabilities are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefit is remote. Possible obligations whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

3. Significant accounting policies (continued)

Related party transactions

All related party transactions must be disclosed in the financial statements which include the amount of the transactions, the amount of outstanding balances, including terms, provisions for doubtful debts related to outstanding balances and the expense recognized during the period in respect to bad or doubtful debts from related parties.

4. Future changes in accounting policies

The Corporation regularly assesses the impact of new IFRS standards, changes in existing standards or new interpretations that have been issued but are not yet effective. Relevant standards issued but not yet adopted at the date of issuance of these financial statements are described below:

In May 2024, the International Accounting Standards Board ("IASB") issued amendments to IFRS 9, Financial Instruments (IFRS 9), which introduced additional guidance in two areas. The first relates to financial assets with contingent features and when these features can be considered consistent with a basic lending arrangement, in which case the instrument can be measured at amortized cost. The second relates to the timing of derecognition of financial liabilities when payment takes place through an electronic payment system and certain conditions are met. These amendments will be effective for the fiscal year beginning November 1, 2026. The Corporation is currently assessing the impact of these amendments on the financial statements.

In April 2024, the IASB issued IFRS 18, Presentation and Disclosure in Financial Statements ("IFRS 18"). IFRS 18 replaces IAS 1 Presentation of Financial Statements and sets out requirements for the presentation and disclosure of information in the primary financial statements and notes. The standard applies to annual reporting periods beginning on or after January 1, 2027 and is to be applied retrospectively, with early adoption permitted. The Corporation is currently assessing the impact of the new standard on the financial statements.

5. Determination of fair values

The Limited Partnership's financial instruments are recorded at fair value or at amounts that approximate fair value in the financial statements. The Limited Partnership classifies fair value measurements within a hierarchy which gives highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchies are:

- Level 1: Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2: Inputs, other than quoted prices, that are observable for the asset or liability, either directly or indirectly, including inputs in markets that are not considered to be active.
- Level 3: Inputs that are unobservable. There is little if any market activity. Inputs into the determination of fair value require significant management judgment or estimation.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Cash is classified as level 1. Mortgage receivable is classified as level 3.

RESCO FIRST MORTGAGE FUND LP

Notes to Financial Statements

For the year ended December 31, 2024

5. Determination of fair values (continued)

For mortgages receivable, there are no quoted prices in an active market. Management makes its fair value determination by discounting future cash flows at the effective interest rate of the mortgages receivable. The discounted cash flow analysis assumed that all mortgages will be held until maturity. Given the short-term nature of the Limited Partnership's mortgages receivables, generally the fair value approximates their carrying values.

6. Financial risk management *Overview*

The Limited Partnership's planned operations will expose it to a variety of financial risks that arise as a result of its operating and financing activities:

- i. credit risk;
- ii. liquidity risk;
- iii. market risk; and
- iv. operational risk.
- v. interest rate risk, and
- vi. capital risk

This note presents information about the Limited Partnership's exposure, objectives, policies and processes for measuring and managing each of the above risks.

The Limited Partnership employs risk management strategies and policies to ensure that any exposure to risk is in compliance with the Limited Partnership's business objectives and risk tolerance levels. While the General Partner has the overall responsibility for the establishment and oversight of the Corporation's risk management framework, management has the responsibility to administer and monitor these risks.

Credit risk

Credit risk is the risk of financial loss to the Limited Partnership if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Limited Partnership's mortgage receivables.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

Cash and cash equivalents	\$ 84,063
Mortgages receivable	4,389,235
	<u>\$ 4,473,298</u>

Cash consists of bank deposits. The Limited Partnership manages the credit exposure related to cash by selecting financial institutions with high credit ratings. Mortgages receivable are issued to borrowers who must pass a credit check. Given these credit ratings, management expect minimal counterparty risk.

RESCO FIRST MORTGAGE FUND LP

Notes to Financial Statements

For the year ended December 31, 2024

6. Financial risk management (continued)

Liquidity risk

Liquidity risk is the risk that the Limited Partnership will not be able to meet its financial obligations as they are due. The Limited Partnership's approach to managing liquidity is to ensure it will have sufficient liquidity to meet its liabilities when due. The Limited Partnership's ongoing liquidity will be impacted by various external events and conditions.

The Limited Partnership expects to repay its financial liabilities in the normal course of operations and to fund future operational and capital requirements through future operational cash flows.

As at December 31, 2024, the management considers that the Limited Partnership does not have significant exposure to liquidity risk.

Market risk

Market risk is the risk that changes in market prices, such as interest rates, will affect the Limited Partnership's net income or the value of financial instruments. The objective of the Limited Partnership is to manage and mitigate market risk exposures within acceptable limits, while maximizing returns.

Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Limited Partnership's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behavior. Operational risks arise from all of the Limited Partnership's operations.

Interest rate risk

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. As the Limited Partnership does not currently have any variable interest bearing debt, the Limited Partnership is not exposed to interest rate risk.

The Limited Partnership had no interest rate swaps or financial contracts in place as at December 31, 2024.

Capital risk management

The Limited Partnership's capital management policy is to maintain a strong capital base that optimizes the Limited Partnership's ability to grow, maintain investor and creditor confidence and to provide a platform to create value for its partner. The Limited Partnership intends to maintain a flexible capital structure to maximize its ability to pursue additional investment opportunities, which considers the Limited Partnership's early stage of development and the requirement to sustain future development of the business.

INDEPENDENT AUDITORS' REPORT

To the partners of RESCO First Mortgage Fund LP,

Opinion

We have audited the statement of financial statements of RESCO First Mortgage Fund LP ("the Limited Partnership") which comprise the statement of financial position as at December 31, 2023, and the statements of comprehensive income and partners' equity, and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of RESCO First Mortgage Fund LP as at December 31, 2023 and the results of its operations and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Limited Partnership in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing these financial statements, management is responsible for assessing the Limited Partnership's ability to continue as a going concern, disclosing, as applicable, matters related to a going concern and using the going concern basis of accounting unless management either intends to liquidate the Limited Partnership or to cease operations, or has no realistic alternative to do so.

Those charged with governance are responsible for overseeing the Limited Partnership's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

T 416 977 6600 F 416 977 5874 www.rmr CPA.ca

36 Toronto Street, Suite 800, Toronto, Ontario, Canada M5C 2C5

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Limited Partnership's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Limited Partnership's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Limited Partnership to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

RESCO FIRST MORTGAGE FUND LP

Notes to Financial Statements

For the year ended December 31, 2023

1. Limited partnership

Resco First Mortgage Fund LP (the "Limited Partnership") is a limited partnership established under the laws of the Province of Ontario on December 10, 2019 and governed by an amended and restated limited partnership agreement ("Limited Partnership Agreement") dated February 28, 2020. The address of the Limited Partnership's registered office is 360 Highway 7 East, Unit 28, Richmond Hill Ontario. The Limited Partnership's general partner is Resco First Mortgage Fund GP Corp. (the "General Partner").

The Limited Partnership was formed for the purpose of investing in residential mortgages and is managed by Radiance Mortgage Brokerage Inc. (the "Manager"), a corporation formed under the laws of the Province of Ontario. The Manager provides portfolio management and mortgage brokerage services. The General Partner has also engaged 5C Capital Inc. ("the Administrator"), a corporation formed under the laws of the Province of Ontario, to provide mortgage administration services.

2. Summary of significant accounting policies and basis of presentation

Statement of compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

Functional and presentation currency

The financial statements are presented in Canadian dollars, which is the functional currency of the Limited Partnership.

Basis of measurement

The financial statements have been prepared on a historical cost basis, except for financial instruments at fair value through profit or loss are measured at fair value with changes in fair value. The methods used to measure fair values are discussed in note 4.

Use of estimates and judgments

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may vary from these estimates.

Fair value of mortgage receivable

The Limited Partnership is required to make estimates relating to the fair value of mortgages receivable. These estimates may include assumptions regarding local real estate market conditions, interest rates and the availability of credit, cost and terms of financing, the impact of present and future legislation or regulation, prior encumbrances and other factors affecting the investments and underlying security of the investments. These assumptions are limited by the availability of reliable comparable data, economic uncertainty, ongoing geopolitical concerns and the uncertainty of predictions concerning future events. By their nature, estimates of fair value are subjective and do not necessarily result in precise determinations. Should the underlying assumptions change, the estimated fair value could vary by a material amount.

Notes to Financial Statements

For the year ended December 31, 2023

2. Significant accounting policies (continued)

Expected credit losses on mortgage receivables

The Limited Partnership assesses the impairment and extent of losses on mortgages at each reporting date, and books a provision for mortgage losses accordingly. Judgement by management is required in assessing where there has been a significant increase in credit risk when a mortgage is impaired. Estimates are required to determine the amount and timing of future cash flows when determining losses. In estimating future cash flows, the Partnership makes judgements about the borrower's financial situation and the net realizable value of collateral. These estimates are based on assumptions about a number of factors and actual results may differ, resulting in future changes to the provision.

3. Significant accounting policies

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments are recognized in accordance with IFRS 9.

Recognition and initial measurement

Financial instruments are recognized on the date of origination at the fair value of consideration exchanged. Except for financial instruments carried at fair value through profit or loss, the initial measurement includes transaction costs that are directly attributable to its issuance.

Classification and subsequent measurement

Under IFRS 9, classification of financial assets is determined based on:

- (i) the business model under which the assets is held; and
- (ii) the contractual cash flow characteristics of the instrument

The Company's financial assets are predominantly comprised of mortgages receivable. Mortgages are managed in order to generate cash flows from collection of contractual cash flows. Contractual cash flows are consistent with basic lending arrangements and represent cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Accordingly, mortgages receivable are classified as amortized cost instruments using the effective interest rate method.

All other financial assets and liabilities are classified as amortized cost instruments.

Impairment of financial assets

The Company recognizes expected credit losses (ECL) at an amount equal to 12 month ECL, if the credit risk on a mortgage at the reporting date has not increased significantly since initial recognition (Stage 1). A lifetime ECL is recorded on performing mortgages which are considered to have experienced a significant increase in credit risk (Stage 2) and on credit impaired financial assets (Stage 3).

The main factors considered in determining a significant increase in credit risk include relative changes in probability of default since origination and certain other criteria such loan delinquency.

Evidence of a significant increase in credit risk include factors such as:

- significant financial difficulty of the borrower;
- default or delinquency in interest or principal payments;
- high probability of the borrower entering a phase of bankruptcy or a financial reorganization; and/or
- measurable decrease in the estimated future cash flows from the loan or underlying assets that back the mortgage.

RESCO FIRST MORTGAGE FUND LP

Notes to Financial Statements

For the year ended December 31, 2023

3. Significant accounting policies (continued)

Generally, mortgages overdue for 30 days are considered Stage 2 mortgages and those overdue by 90 days are considered impaired (Stage 3). However, a mortgage overdue by 90 days or more may be considered Stage 2 if the liquidation value of the collateralized assets is sufficient to prevent mortgage losses. All other performing assets are considered Stage 1.

Credit loss calculations are outputs of models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. The expected credit loss impairment model reflects the present value of all cash shortfalls related to default events over the expected life of a financial instrument.

The probability of default ("PD"), exposure at default ("EAD"), and loss given default ("LGD") inputs used to estimate expected credit losses are modelled based on macroeconomic variables that are most closely related with credit losses in the relevant portfolio. The measurement of expected credit losses considers information about past events and current conditions as well as reasonable and supportable forecasts of future events and economic conditions. The estimation and application of forward-looking information requires significant judgement.

Presentation of allowance for ECL

Mortgages receivable are presented on a net basis, where the loss allowances for ECL (the "provision for mortgage losses") are deducted from the gross carrying amount of the assets.

Write-offs

Mortgages are written off when there is no realistic prospect of recovery. This is generally the case when the Company determines that the borrower does not have assets or a source of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities.

Revenue recognition

Mortgage interest is recognized in the statement of comprehensive income using the effective interest method. Other income is recognized as earned.

Referral fees

Referral fees are paid in connection with raising of limited partnership capital. The fees are amortized over the period that early redemption fees are charged. The amount not yet amortized is recognized as a deduction from equity.

Provisions and contingent liabilities

Provisions and contingent liabilities are recognized when there is a present legal or constructive obligation arising as a result of a past event for which it is probable that an outflow of economic benefits will be required to settle the obligation and where a reliable estimate can be made of the amount of the obligation. Provisions and contingent liabilities are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefit is remote. Possible obligations whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

3. Significant accounting policies (continued)

Related party transactions

All related party transactions must be disclosed in the financial statements which include the amount of the transactions, the amount of outstanding balances, including terms, provisions for doubtful debts related to outstanding balances and the expense recognized during the period in respect to bad or doubtful debts from related parties.

4. Determination of fair values

The Limited Partnership's financial instruments are recorded at fair value or at amounts that approximate fair value in the financial statements. The Limited Partnership classifies fair value measurements within a hierarchy which gives highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchies are:

- Level 1: Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2: Inputs, other than quoted prices, that are observable for the asset or liability, either directly or indirectly, including inputs in markets that are not considered to be active.
- Level 3: Inputs that are unobservable. There is little if any market activity. Inputs into the determination of fair value require significant management judgment or estimation.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Cash is classified as level 1. Mortgage receivable is classified as level 3.

For mortgages receivable, there are no quoted prices in an active market. Management makes its fair value determination by discounting future cash flows at the effective interest rate of the mortgages receivable. The discounted cash flow analysis assumed that all mortgages will be held until maturity. Given the short-term nature of the Limited Partnership's mortgages receivables, generally the fair value approximates their carrying values.

5. Financial risk management

Overview

The Limited Partnership's planned operations will expose it to a variety of financial risks that arise as a result of its operating and financing activities:

- i. credit risk;
- ii. liquidity risk;
- iii. market risk; and
- iv. operational risk.
- v. interest rate risk, and
- vi. capital risk

This note presents information about the Limited Partnership's exposure, objectives, policies and processes for measuring and managing each of the above risks.

The Limited Partnership employs risk management strategies and policies to ensure that any exposure to risk is in compliance with the Limited Partnership's business objectives and risk tolerance levels. While the General Partner has the overall responsibility for the establishment and oversight of the Partnership's risk management framework, management has the responsibility to administer and monitor these risks.

Notes to Financial Statements

For the year ended December 31, 2023

5. Financial risk management (continued)

Credit risk

Credit risk is the risk of financial loss to the Limited Partnership if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Limited Partnership's mortgage receivables.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

Cash	\$ 52,122
Accounts receivable	33,112
Mortgages receivable	4,390,000
	<u>\$ 4,475,234</u>

Cash consists of bank deposits. The Limited Partnership manages the credit exposure related to cash by selecting financial institutions with high credit ratings. Mortgages receivable are issued to borrowers who must pass a credit check. Given these credit ratings, management expects minimal counterparty risk.

Liquidity risk

Liquidity risk is the risk that the Limited Partnership will not be able to meet its financial obligations as they are due. The Limited Partnership's approach to managing liquidity is to ensure it will have sufficient liquidity to meet its liabilities when due. The Limited Partnership's ongoing liquidity will be impacted by various external events and conditions.

The Limited Partnership expects to repay its financial liabilities in the normal course of operations and to fund future operational and capital requirements through future operational cash flows.

As at December 31, 2023, the management considers that the Limited Partnership does not have significant exposure to liquidity risk.

Market risk

Market risk is the risk that changes in market prices, such as interest rates, will affect the Limited Partnership's net income or the value of financial instruments. The objective of the Limited Partnership is to manage and mitigate market risk exposures within acceptable limits, while maximizing returns.

Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Limited Partnership's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behavior. Operational risks arise from all of the Limited Partnership's operations.

Interest rate risk

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. As the Limited Partnership does not currently have any variable interest bearing debt, the Limited Partnership is not exposed to interest rate risk.

The Limited Partnership had no interest rate swaps or financial contracts in place as at December 31, 2023.

Notes to Financial Statements

For the year ended December 31, 2023

5. Financial risk management (continued)

Capital risk management

The Limited Partnership's capital management policy is to maintain a strong capital base that optimizes the Limited Partnership's ability to grow, maintain investor and creditor confidence and to provide a platform to create value for its partner. The Limited Partnership intends to maintain a flexible capital structure to maximize its ability to pursue additional investment opportunities, which considers the Limited Partnership's early stage of development and the requirement to sustain future development of the business.

6. Related party transactions

RESCO Mortgage Investment Corporation ("RESCO"), a mortgage investment corporation, the Manager and the Administrator are related to the Limited Partnership by virtue of being under common management.

Interest receivable	33,112

	<u>\$ 4,423,112</u>

Mortgages receivable consists of mortgages on residential properties in the province of Ontario.

The Limited Partnership recognizes expected credit losses (ECL) at an amount equal to 12 month ECL, if the credit risk on a mortgage at the reporting date has not increased significantly since initial recognition (Stage 1). Generally, mortgages overdue for 30 days are considered Stage 2 mortgages and those overdue by 90 days or more may be considered Stage 2 if the liquidation value of the collateralized assets is sufficient to prevent mortgage losses. All other performing assets are considered Stage 1.

	Stage 1	Stage 2	Stage 3	Total
Mortgages receivable, gross carrying value	\$ 4,423,112	-	-	\$ 4,423,112
